

COMPASS 360TM

by SJK

What are you WADING for? | *Wade Wear 2021*

What are you **WADING** for?

Performance Wade Wear, built for outdoor people, by outdoor people.

Rooted in more than 40 years of design and manufacturing, we understand that keeping you dry and comfortable in the field is a top priority. Compass 360® was forged in the marshes of Louisiana, the rice fields in Arkansas, the streams of the Smokeys, and the rivers of Montana. Our customers don't define themselves by the price they pay for a brand but by the value and performance they receive from our products.

As fellow outdoorsmen, we share your expectations of our gear, and strive to exceed those expectations. We design dependable outerwear ready for anything mother nature might throw at you. We load our gear with the best technology and the features that matter. We don't have runway designers with fashion degrees, just innovative performance focused users. No fancy gimmicks or expensive marketing, just the best quality product at the fairest price possible. Our focus on service keeps people coming back, and our generous warranty separates Compass 360® from the rest.

Our philosophy is simply to provide outstanding products and exceptional service, with honesty and clarity. To treat every customer the way that we want to be treated. To do the right thing, whatever it takes! We do this so you can do more of what you love for less.... What are you wading for?

FOOTWEAR

WADING SHOES

2415325 - **LEDGES™** (Cleated Sole) Wading Shoes

2415225 - **LEDGES™** (Felt Sole) Wading Shoes

The LEDGES™ Wading shoe combines a hiking boot fit with wading shoe safety and function. Constructed with 1000 denier nylon and polyurethane upper. The LEDGES™ offers a solid grip with "LSG™" Locking Stud Grip attachment points embedded in the sole. Designed to be worn with neoprene booties and with or without wading studs. The LEDGES™ features a reinforced toe and heel cap, locking lace hooks, padded collar, and durable web heel pull.

LSG™ (Locking Stud Grip) Outsole

The New LSG™ Outsole by Compass 360® takes the headache out of felt regulations by giving you a solid studded grip with or without felt. The embedded stud attachment point locks your studs in place so you can forget about your studs falling out. The LSG™ system is integrated in all Compass 360® wading shoes, keeping studs in and fisherman upright. Available in both felt and cleated models.

Men's Whole Boot Sizes: **7 to 13**

PANTS

ALL MEASUREMENTS:

Are in (") inches. Remember that all garments are designed as outerwear, and may be worn over other garments. So allow for extra room for inner garments as needed.

CHEST MEASUREMENT:

Measure with arms raised, around the largest part of the chest. Approximately 1 inch below the armpit.

SLEEVE MEASUREMENT:

Measure from the center of the back, just below the collar, to 1" inch below the wrist.

WAIST MEASUREMENTS:

Measure the waist line just above the hips. Comfortable pant dimensions should range between the relaxed waist and Max waist measurement.

INSEAM MEASUREMENT:

Measure from the center of the crotch down the leg to the arch of your foot.

STAY LONGER

Performance outerwear, built for outdoor people, by outdoor people.

Rooted in more than 40 years of design and manufacturing, we understand that keeping you dry and comfortable in the field is a top priority. Compass 360® was forged in the marshes of Louisiana, the fields of North Dakota, the mountains of the Appalachia, the forests of Washington, the canyons of Colorado, and the streams of Montana. Our customers don't define themselves by the price they pay for a brand but by the value and performance you receive from a product.

As fellow outdoorsmen, we share your expectations of our gear, and strive to exceed those expectations. We design dependable outerwear ready for anything mother nature might throw at you. We load our gear with the best technology and the features that matter. We don't have runway designers with fashion degrees, just innovative performance focused users. No fancy gimmicks or expensive marketing, just the best quality product at the fairest price possible. Our focus on service keeps people coming back, and our generous warranty separates Compass 360® from the rest.

Our philosophy is simply to provide outstanding products and exceptional service, with honesty and clarity. To treat every customer the way that we want to be treated. To do the right thing, whatever it takes! We do this so you can do more of what you love for less.... Stay Longer.

SportTek II™

RAIN SUIT

ST12110 - SportTek II™ Rain Suit

The **SportTek II™** Waterproof and Breathable Rain Suit brings about the next generation of value driven functionally designed rainwear. The **SportTek II™** is constructed with a light weight and durable 2-layer fabric. The outermost layer of the **SportTek II™** fabric sheds water immediately not allowing any moisture to absorb making it damp or heavy. The fully taped design of the **SportTek II™** gives this suit double the seam strength and protection of similar suits on the market. This light weight, seam sealed, waterproof, and breathable suit is ready to go anywhere, and help you Stay Longer when mother nature decides to throw you a curve ball.

FEATURES:

- Full front zippered opening with waterproof storm flap
- Fully taped and sealed seams for full waterproof protection
- Adjustable hood with draw cord and cord locks
- Comfort fit elastic wrist cuff openings
- Elastic pant waist for adjustable and comfortable fit
- Durable 103-gram fabric for tough and lasting protection
- Hook-and-loop adjustable leg opening
