# MDJ

## CRANK BAIT SERIES

*HoneyComb engineered wall configurations were used to make the body-walls thinner, yet strong. This allows for lifelike action, more similar to wooden lures, but with much more durability. The super-wide, precision shaped lip is made of the highest-grade circuit board material, and we feel it's the best on the market for deflecting hard-cover. The "57" offers nothing but high-performance to those anglers looking to get more out of squarebill.*

**Circuit board lip**

**Honeycomb Wall**

**MARK DANIELS JR**

# SB57™

## Top Features Include:

- Honey-comb constructed walls for increased durability and action.
- Large #4 hooks.
- A hybrid coffin squared chipboard bill.

# MR-6™

Think long-casting, hard-hitting, and fish-catching, when you think MR6. This Mid-Range 6fter---as the initials suggest---is WAY better at coming over submerged grass stems and tops than other cranks in this range. Just try one. And, you'll love the transfer weight that makes it cast like a rocket!

**Bill Lewis**  
FISHING™

ONLY the StutterStep can perform the iconic "walk-the-dog" action while holding next to targeted cover. And, with its enticing tail-kick on every turn, it calls up hard-hitting bites from the cover. YouTube Search "StutterStep Lure" to see for yourself!

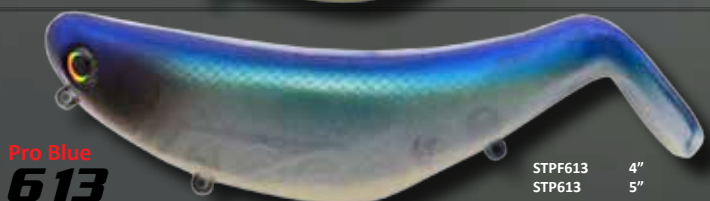

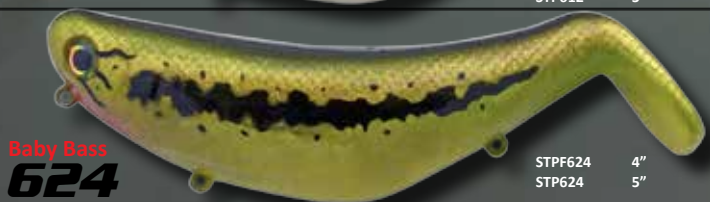

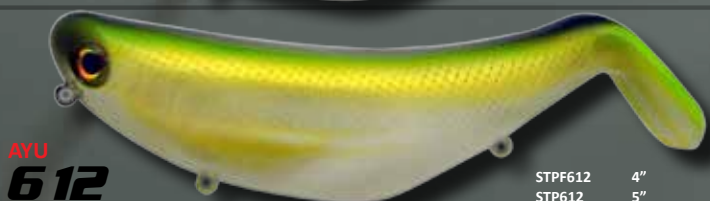

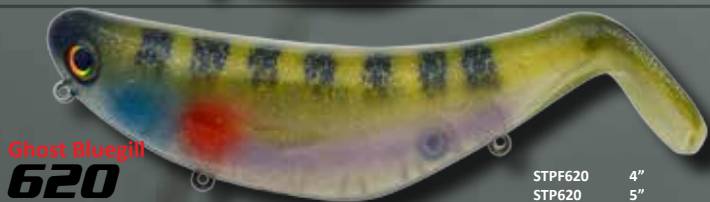

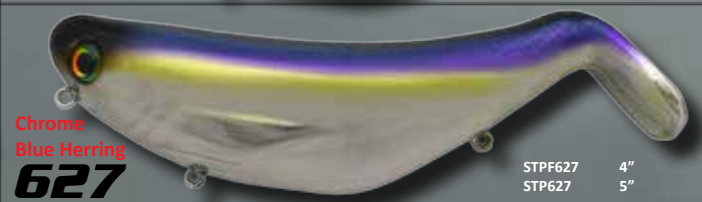

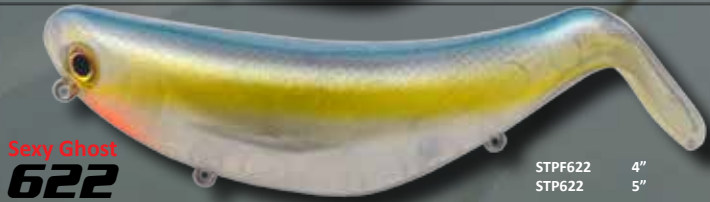

4" StutterStep Order Code: **STPF**

5" StutterStep Order Code: **STP**

# STUTTER STEP™

Color Name/Color Number/Size Order Codes

The ECHO 1.75 is different than most squarebills in that it stays more shallow, kicks wider, and blends a variety of high and low pitch sounds. This makes it the perfect squarebill for quickly covering very shallow water. It grinds over grass-cover like no other.

## Features

### Cast far, land soft

The Rocket Bobber consistently cast 30 to 40 yards, yet it is light weight enough to land softly on the water's surface. The aerodynamic design and perfectly balanced weight structure make what's impossible with other bobbers an easy task for the Rocket Bobber.

### Accuracy/Sensitivity

Being shaped like a rocket not only helps the bobber cast far, but enables it to cut through wind and travel on a more accurate line to the casting target. The light weight and **TIP-UP DESIGN** of the Rocket Bobber makes it extremely responsive to even the most subtle bites too!

### Durability

The Rocket Bobber is the only bobber on the market that comes with a **LIFETIME WARRANTY**. How can we provide that? Well, the Rocket Bobber is virtually indestructible. Even when stepped on it will not break due to its structurally sound internal design and sonic-welding process.

**RB4101**

(Also available in 12-PK bag with UPC label only.  
ORDER CODE: RB4412)

### TIP-UP DESIGN

When the bobber stands up just set the hook! Or, add weight to the line and fish the Rocket Bobber in a vertical position.

### USA QUALITY

All Rocket Bobbers are made in one of the USA's leading plastics factories. No bobber is more durable than a Rocket Bobber!

### FLIES LIKE A ROCKET

The aerodynamic design and balanced weight layout allow for 30 to 40 yard casts with pin-point accuracy and soft landings.

### Slip It or Fix It

The spring-loaded stainless steel J-hook makes it easy to lock the bobber in place on the line, and with a quick 180 degree twist the J-hook will open up for SLIP-BOBBER fishing too.

-The **BIG BONES** Series is a retro deal that started decades back with anglers using paint pens to mark bone patterns on the side of their "Traps. The thick lines of the Big Bones create tremendous color contrast that fish can't ignore. We feel we've perfected this scheme with this series.  
-The **CLEAR TRAP** Series allows more light to penetrate the lure, lighting up the colors giving them a glow and flash that attracts the fish.  
-The **MATTE SERIES** brings out rich color tones that perform extremely well in low-light and stained water.

# Apparel

We now have new Rat-L-Trap gear - short sleeve t-shirts, long sleeve t-shirts, hoodies, hats, and gaitors available in various colors and sizes. Please check [Rat-L-Trap.com](http://Rat-L-Trap.com) to see all available options.

## Mustad® Triple-Grip

*Xtra short shank-Xtra strong*

Our stock hooks are premium. They have the famous Triple Grip wide-gap to hold the hook set, are thick-gauged, and have a new extra short shank to come through cover better. As an added value to our customers we offer special factory pricing on our hooks for anglers that would like to buy them to replace old ones or to add to other baits.

Size 2: Order Code: SLH2

Size 4: Order Code: SLH4

Size 6 : Order Code: SLH6

## Mustad® Tail-Chasers

Mustad® Tail Chaser Hooks are perfect additions to Rat-L-Traps, surface plugs, and jerkbaits. These feathered hooks add the life-like, tail-kicking action that entices the big bites.

## Liv-N-Sound™

Independent test have proven that the Rat-L-Trap produces natural sounds which are nearly identical to sounds made by schooling shad under distress. These specific sounds are highly effective for attracting Bass and other game fish and for stimulating aggressive feeding behavior.

Produced by Joseph Olson, President of Cetacean Research Technology

The Rat-L-Trap is a tremendous search-bait for saltwater fishing. It allows anglers to cover water fast and locate the biting fish. Just be ready, because the 'Trap is famous for provoking vicious strikes. From inshore to offshore, Rat-L-Trap has you covered with four different sizes of Rat-L-Traps to choose from. Mustad® cad-plated hooks come standard to provide durability for our saltwater series.
