NED CRAW

Designed to mimic the small crawfish that bass feed on in cold climates, the Savage Gear NED Craw is the most realistic crawfish-imitation NED bait on the planet. We've infused this craw with salt to fine-tune the buoyancy of our Duratech material, delivering amazingly lifelike action of a crawfish assuming a defensive position.

NED SALAMANDER

Bass love to ambush salamanders, found across North America. Whether the bass are simply after a quick meal or are protecting nests from the amphibians that commonly feed on bass eggs, they're quick to pounce on salamanders. The NED Salamander's ribbed-body design and appendages assure the bait moves in perfect imitation of a feeding salamander to attract the attention of predatory bass and other gamefish. Our Duratech softplastic material is tuned with salt infusion for perfect buoyancy and sink rate.

NED GOBY

Designed to mimic one of the favorite prey species of freshwater predators, the Savage Gear NED Goby is the most authentic Goby NED bait conceivable. We've salt-infused the Duratech soft plastic to optimize the Goby's buoyancy, and the NED Goby in action is truly nearly impossible to distinguish from the real thing.

NED MINNOW

The profile of this minnow makes it a multi-tool weapon for the tournament angler. Fish it NED style to imitate stunned baitfish during a shad die-off or drag it across the bottom to imitate unsuspecting, feeding baitfish. In addition, its cupped-face design makes the NED Minnow deadly effective as a swimbait with a round ball jig. The Savage Gear Ned Minnow is the most realistic minnow-imitation NED bait on the market. Infused with scent to provoke feeding, and with salt to fine tune the buoyancy of our proprietary Duratech, the Minnow delivers extremely lifelike and subtle swimming action for finesse presentations.

- **Hyper-Realistic 3" Minnow Profile**
- **Custom Duratech Formulation For Lifelike Feel And Durability**
- **T-Tail Design Delivers Lifelike Swimming Action**
- **Salt Infused For Ideal Buoyancy**
- **Scent Infused To Trigger Feeding And Aggression**
- **Designed To Be Fished On Savage Ned Heads**

NED HEAD

We know NED rig fishing is all about finesse. This is why we have equipped our NED hooks with a light carbon steel wire to maximize hook penetration with light line but made it strong enough that when you hook a monster, she stays pegged and the hook does not rip out of her mouth. Our teardrop design and 60 degree eye allows for more gliding action on the fall with light tension. Our hook point wire is offset up from the centerline to increase the exposed hook gap and maximize the hook-up ratio. Our hook keeper is not welded to the hook to eliminate any potential weak points. Powder-coated for extreme durability, these NED heads are dialed-in to meet the demands of seasoned tournament pros.

3D LIZARD

We've designed this lizard with an anatomically correct profile and ultra-fine details that perfectly imitate a salamander in the wild. A great choice for a Texas rig, Carolina rig, trailer for skirted jigs and even flipping, the Savage Gear 3D Lizard is a versatile bass-catching tool that excels in diverse conditions. Scent infusion helps trigger feeding and aggression.

- Aggressive ribbing for increased presence
- Contoured body with reverse ribbing moves through vegetation and cover with ease
- Enlarged ribbontail design provides pronounced, attention-getting vibration
- Infused with scent so predators grab and hold

RAZORBACK WORM

The Razorback's aggressive ribbed design actively displaces water, giving the worm a presence in when retrieved like no other worm on the market. Thanks to its reversed ribbing and contoured body, the Razorback moves over obstacles with ease, making it an ideal choice for Texas rigging in shallow vegetation or Carolina rigging for structure offshore. Its elongated curly-tail design delivers an aggressive swimming action with even the most subtle movements, making sure it gets noticed by any bass around. Savage has infused this bait with scent to trigger feeding.

3D PULSETAIL BLUEGILL LINE THRU

Based exactly on a scan of a real bluegill, this innovative swimbait looks and moves exactly like the real thing, making it an outstanding choice for anglers fishing big fish in clear or pressured waters. Its line-thru design allows the body of the bait to slide away from fish once hooked, maximizing hookup-to-landing ratio by preventing the fish from using the weight of the lure to help dislodge the hook.

PULSETAIL TROUT RTF

This new Pulsetail bait brings everything anglers love about the line-thru Pulsetail Trout to those looking to fish a trout in a fixed-hook configuration. The RTF Pulsetail Trout comes equipped with a heavy-duty jig hook and stinger hook. The stinger is hidden in the trout's split-dorsal design, minimizing exposed hardware for a more natural presentation that's critical to fool the wariest of big fish. Secured with steel cable to an anchor point behind the jig hook, this trout is ready for battle with the largest fish in the waterway. Available with a variety of ultra-realistic photoprint details and powered by our patent-pending Pulsetail design, the new RTF trout look and swim like the real thing, making them exceptional baits for trophy fishermen in any body of water.

DC POPPING FROG

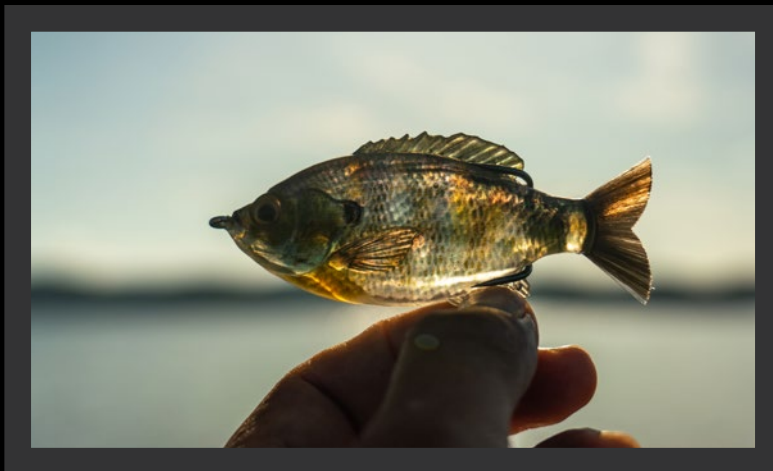

This innovative easy-walking, loud-popping frog offers a great hookup ratio. The DC Popping Frog's innovative dual-chamber design drastically reduces water intrusion into the body: No more squeezing water out after every cast. Equipped with a heavy-duty upward-pointing frog hook, the DC popper will call big fish out of cover while offering the angler optimum hook penetration. Outfitted with premium hand-painted details and premium rubber skirting, this frog will turn heads above and below the water.

- Loud and Unique Prop Sound
- Large Rattle Chamber
- Long Casting
- 4X Hooks

PROP WALKER HYBRID TOPWATER

Many baits can create different actions, based on retrieve style, but the Savage Gear Prop Walker can literally become two different baits. Need noisy, obnoxious sputtering to search broad areas and find active fish? Check. How 'bout a smooth walking topwater that'll coax those hungry fish? Check.

3D SHINE GLIDE

The Savage Gear 3D Shine Glide is a slow-sinking glide bait. These baits have been deadly on a multitude of game fish from largemouth bass to musky. On a slow retrieve the bait glides from side to side. A pop of the rod tip will increase the darting action. Deadly on a twitch and stop retrieve.

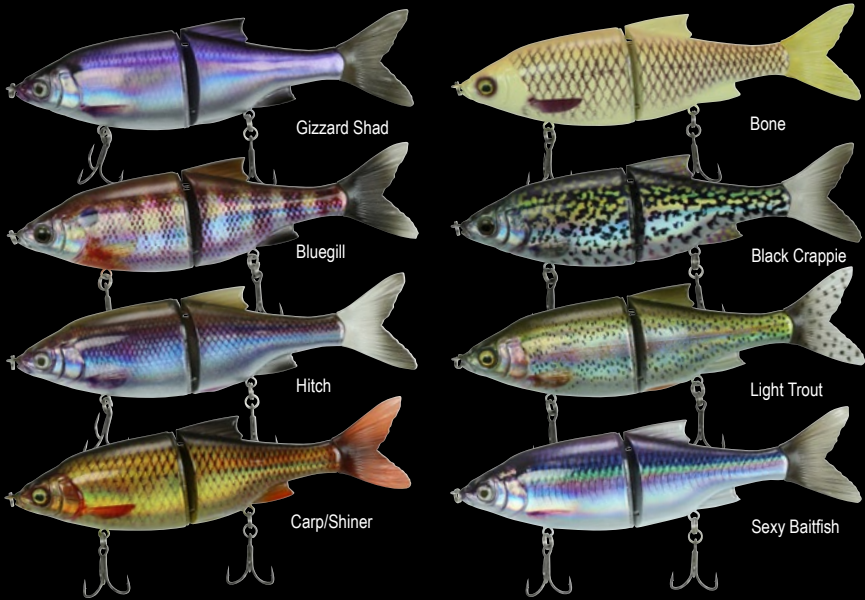

- **Ultra Realistic 3D Scanning.**
- **Top Quality Paint Finishes Mimic Most Shad And Shiner Species.**
- **Deadly On Largemouth, Smallmouth, Spotted And Striped Bass.**
- **Two Fish Catching Sizes Lets Anglers Quickly Adapt To Any Bait Situation.**
- **Every Bait Comes Rigged With Top Quality Hooks And Rings.**
- **Unmatched Swimming Action.**

GOBY CRANKBAIT

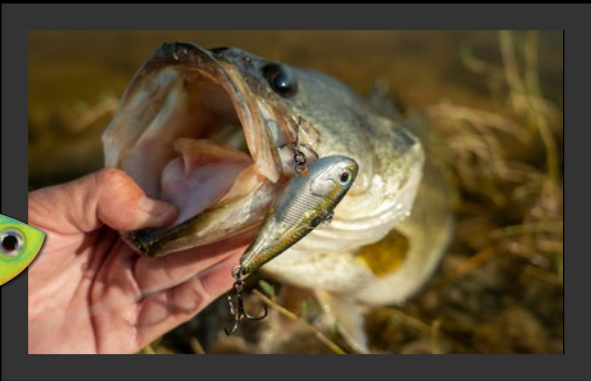

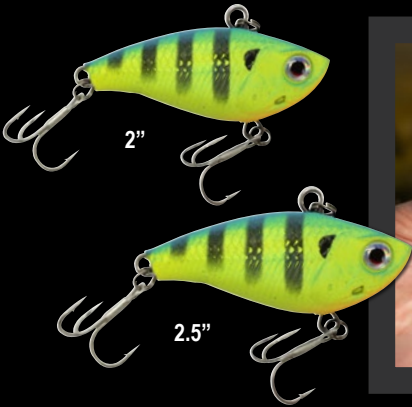

Inspired by a 3D scan of a freshwater goby. This little crankbait packs plenty of action into a small package. Its large bill is not only excellent at getting it down deep, but also at deflecting off the structure where predatory fish hide. With a loud rattle chamber and wide swimming action, the Goby crankbait will quickly become a favorite.

- **Fish On A Lift-And-Fall Or Steady Retrieve**
- **Frantic Swimming Action On The Pause Or Fall**

TPE SOFT VIBE

Silent blade baits have been deadly on fish for many years, but lack any realism to actual baitfish. The TPE Soft Vibe crosses that barrier with life-like feel and looks. Built of super-durable TPE material (strong as rubber, flexible like PVC) the TPE Soft Vibe still gives anglers all the action of their favorite lipless crankbait without all the noise.

PRE-RIGGED 3D LINE THRU TROUT

The Savage Gear Line Thru Trout has been a huge hit for anglers targeting big fish across the world. These baits come pre-rigged on strong wire leaders with treble and stinger hooks. Once a fish takes the bait the hooks dislodge from the bait as it slides up the leader. This means less damage to your bait and less lost fish.

HARD PIKE

Based on Savage Gear's wildly popular 4Play Pro, this new lure comes in two large sizes with a five-piece segmented body that gives it a remarkably fish-like S-curve action upon retrieve. Like most Savage lures, its photoprint fine detail is based on a 3D scan of an actual baby pike. While designed for musky and pike anglers, look for other game fish predators to find the scintillating action irresistible, whether you cast and retrieve it or use it as a trolled lure. The hardware is all heavy duty, so when you stick a monster, it will stay stuck.

Black Orange Pike

HYBRID PIKE

The Savage Gear Hybrid Pike blurs the lines between hard and soft lures. This hard body lure with replaceable soft tails will illicit the most savage strikes from predatory gamefish. The two tail styles give you two different lures in one. The paddle tail makes this bait look like the real thing while the oversized ribbon tail calls fish from great distances.

4D LINE THRU PIKE

Based on a 3D scan of a real baby pike with perfect details, Photo Chrome skin print and added DNA scent! The small pike profile is exceptional of drawing a strike from the largest fish in the waterway. The lure swims with the most realistic S-curve action, and will sink slowly when paused. When a fish is hooked, the line thru design will slide the lure away from the hooked fish not allowing the hooked fish to use the weight of the lure as leverage to get unhooked.

- 4D Photo Chrome Skin Print
- Strike Triggering Scent
- Rattle Slot In Paddletail
- Slow Sink
- Easy Change Line Thru System
- Prerigged With Carbon49 Wire And Tournament Trebles

3D LINE THRU PIKE

The perfect Jack Pike Imitation based on a 3D scan of a real Jack Pike, with incredible details and movement – for those periods where the big mammas wants small pike! Line thru system, where you place hooks either on back or Belly – the unique "fungus" build up on the tail, creates a subtle swimming with lots of micro movement from the back and belly fins – Just like a real baby Pike!

REAL EEL PRE-RIGGED

The Savage Gear Real Eel was created by using 3D scan of a real eel. The Real Eel has an awesome tail kicking action at any retrieve speed. This bait has proven deadly on striped bass, cobia, largemouth bass, musky and a variety of other gamefish. This pre-rigged version is available in 3 sizes from 8 - 16 in. in a variety of top color patterns, and comes rigged with an integrated top hook and a secured bottom treble hook. This is the ULTIMATE eel imitation.

- The 3D Burbot Is Available In Three Sizes To Cover Many Different Conditions/Season.
- All Sizes Feature A Glass Rattle Molded Into Tail.

SAVAGE GEAR *it's a savage world*

3D BURBOT RIBBONTAIL

Burbot "aka" Eelpout are a favorite target of large Musky and Pike. The Savage Gear 3D Burbot is the only 3D scanned version of this bait on the market. The hybrid line thru design lets the hooks dislodge from the bait while fighting fish so the bait takes less damage and you land more fish. We also added a glass rattle molded in the ribbon tail to call fish in from greater distances.

ALIEN EEL V2

The special shaped tail of Savage Gear's Alien Eel ensures a deadly slow tail-kicking action on the retrieve, driving big predatory fish insane. The enticing side fins vibrate and draw even more aggressive strikes. This lure can be fished very slow or at higher speeds with stops and jerks. It's steel thru-wired design maximizes strength and durability. Simply cast out, let it sink to the desired depth, retrieve, and hang on.

PULSETAIL PINFISH RTF

Based on the scan of an actual pinfish, the photoprint details and patent-pending Pulse-tail design make this innovative swimbait look and move like the real thing. That lifelike appearance and action make it an exceptional bait for anglers targeting big fish, even those that have seen it all, especially in clear waters with heavy fishing pressure. Its built-in harness delivers the perfect sink rate with just the right amount of buoyancy to allow this lure to sit upright in a natural position, even when completely still. Its embedded rattle and scent-infused PVC body add still more sensory elements that tip the scales in the angler's favor by convincing big fish that they're going after the real thing.

PULSE TAIL NEEDLE FISH

Omnipresent prey for a great variety of saltwater predators, needlefish cause a natural feeding response, and Savage Gear's new Pulsetail Needlefish capitalizes on that with a bait that not only looks like the real thing, but is identical in action as well. Based on a scan of an actual needlefish, its photoprint detail in head and body is perfect. The patent-pending Pulsetail is active when retrieved at even slow speeds.

- Patent Pending Pulse Tail Life-like Swimming Action
- Can Be Fished Extremely Slow or Fast
- Based On 3D Scan of Real Mullet
- Built-In Rattle (Ready to Fish and Line Thru)
- High Quality Hand Painted Details
- Available in Weedless, Ready to Fish, and Line Thru Configurations
- Heavy Duty Hooks Included

PULSE TAIL MULLET READY TO FISH

Based off the 3D scan of a real mullet. This innovative swimbait looks and swims like the real thing which makes it an excellent tool for anglers hunting big fish in pressured waters.

ITEM NO.	LENGTH (INCH)	LENGTH (MM)	COLOR	ACTION	PCS/PACK	WEIGHT (OZ)	WEIGHT (GRAMS)	MSRP

REAL EEL JIG

The new Real Eel jig raises the bar for anglers who loved our Real Eel with the increased versatility of its jighead configuration. Lifelike movement and vibration generated by its oversized tail drives predatory fish crazy. Whether targeting lingcod, stripers, cobia or grouper, its durable saltwater-tough PVC body and heavy-duty jig hook make it ideal for tackling anything you encounter.

PANIC PENCIL POPPER

The Panic Pencil Popper's large rear rattle not only generates a loud rattling sound but acts as a weight-transfer system that ensures extreme long-distance casting even into stiff winds. The Pencil moves with an enticingly erratic action that pulls fish to the surface and provokes them to strike. Its "stepped-hull" design draws air in along the plug's sides to its underside, generating bubbles that signal a visual cue of feeding activity without increasing lure's drag and causing angler fatigue. With thru-wire construction, triple split rings and 4X hooks, this plug is built to handle the most brutal saltwater gamefish species.

SANDEEL PENCIL

Based on a 3D Scan of a Real Sandeel. Swims with a seducing slim S-curve, head slight up. On the stop, the lure flutters and rolls backwards – triggering hard strikes. The lure has a built-in rattle chamber, that sends out a loud clicking sound, when twitched. Extreme long cast design for amazing coverage. Supplied with both a single and a treble hook, with the option to add the treble hook to the belly as well.

- **Hyper-Ribbed Body For Greater Presence In The Water**
- **Can Be Worked As A Jerkbait Or Steady Retrieve**
- **Durable PVC Material**
- **Scent Infused To Trigger Feeding And Aggression**

DRAGONTAIL

A remarkably innovative new slug-style bait, the Dragontail offers great versatility in its applications. Whether in fresh or saltwater, the Dragontail's hyper-ribbed body and contours displace water in conspicuous way to make predators home in on the lure, even from a great distance. Its asymmetrical design gives it a subtle tail-swimming action when retrieved steadily, or use a jerk retrieve to create an erratic darting action. Its durable PVC material is scent infused .

- Assist Hook Tie Point

3D OCTOPUS

The Savage Gear 3D Octopus sports a full set of lifelike tentacles, realistically molded lead head and bubble-catching ribbed surface to further mimic the dynamics of a living creature. An embedded rattle enhances the appeal by ringing the dinner bell and giving fish a sonic trail to follow in the often dim lighting of reefs, wrecks and rocky bottom.

3D SWIM SQUID LOOSE BODY

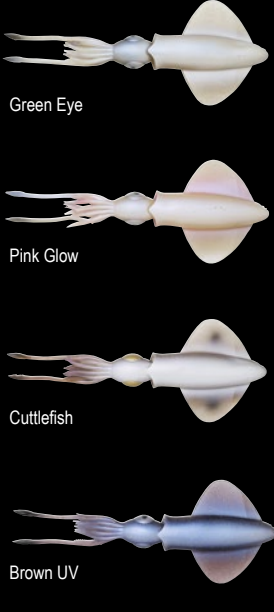

Made of soft, durable PVC, this anatomically accurate bait is made for motion with pulsing side fins and naturally waving tentacles. Add to this a pungent squid scent and this bait will attract plenty of attention from amberjack, cobia, tuna, dolphin, king mackerel, grouper, snapper, tilefish, flounder and many more.

3D SWIM SQUID

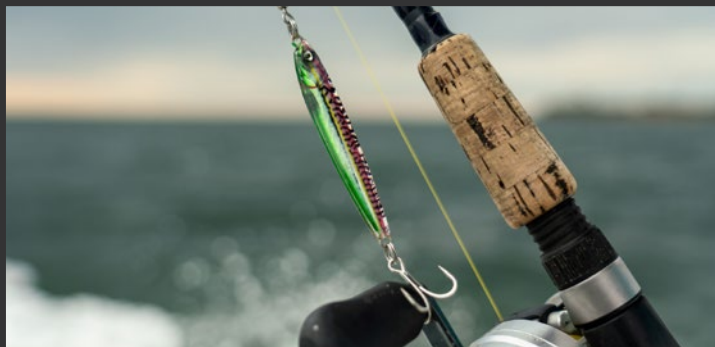

Based on the scan of a real squid, the 3D Swim Squid is as real as it gets. Its life like profile and action empowers anglers with the ultimate fish catching machine.

It can be used in many ways: cast and retrieve, slow jigging or trolling. The unique 2 part design, allows the angler to add scent or squid meat inside or change rigging as needed.

The body fins pulse, and the tentacles vibrate as the lure moves through the water making this lure the perfect squid imitation.

GLASS MINNOW

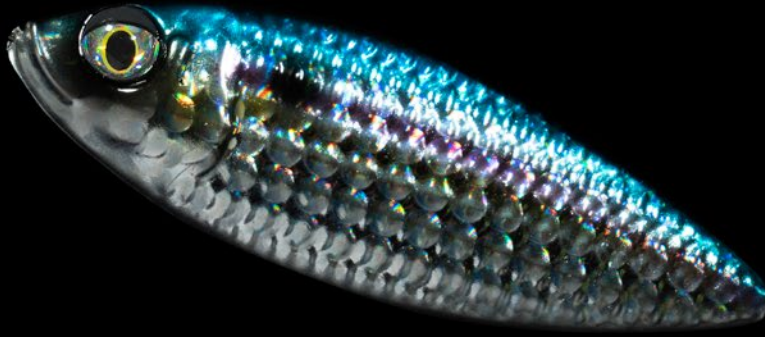

Whether it's offshore game fish like dolphin, tuna, cobia and bonito; or inshore favorites like speckled trout, spanish mackerel, bluefish and barracuda, the Savage Gear Glass Minnow offers the enticing appearance and dependable performance anglers look for in a flat fall jig. Ideal for a horizontal fall technique, the Glass Minnow also swims like the real thing when a cast-and-retrieve technique is in order.

LINE THRU BAITFISH SPOON

Spoons have long enjoyed a high rank among fishing lures; and for good reason, as their user-friendly design, forage mimicking form and inherently attractive motion offer dependable performance right out of the box. Now, the new Savage Gear Line Thru Baitfish Spoon elevates this endearing lure to an even greater level of functionality by successfully addressing the spoon's Achilles heel — line twist.

NEEDLE JIG

Ideal for deep dropping, especially in stronger current when water movement challenges targeted presentations, the long and narrow Needle Jig appeals to grouper, snapper, amberjack and cobia, along with tuna, wahoo, king mackerel and other pelagics patrolling deep structure. This bait casts easily and knives through the water for a pendulum fall across the target just as easily as a vertical drop.

SQUISH ERRATIC FALL JIG

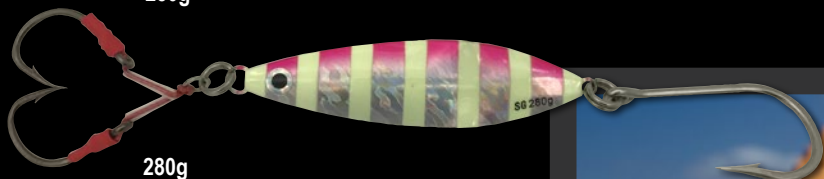

Vertical jigging for pelagic and bottom dwelling gamefish has been around for a while now and anglers are aware of how effective these baits can be. The only downfall to knife and butterfly jigs is how quickly they can move through the strike zone before a fish can react. The Savage Gear Squish is a center balanced jig that moves erratically sideways through the water column to keep the bait in a fish's strike zone longer. Just freespool the Squish to the desired depth and then put the reel in gear and use a jerk and fall retrieve.

- Reinforced Construction
- Thru Wired Design
- 30 and 20 ft Deep Diving Models
- High-Quality Holographic, UV and Superglow Finish

MACKSTICK DEEP DIVER

Made for trolling at up to 10 knots, the Deep Diver comes in 8 tantalizing colors with high-quality reflective, glow and UV finishes. Drop down on the speed and these premium trolling baits will also tempt structure-oriented species. The Deep Diver's reinforced body and lip construction ensure that this lure will stand up to whatever bites, while the premium hardware and 6X strong treble hooks keep that fish connected.

MACKSTICK SPEED RUNNER

The Mack Stick Speed Runner's lipless design keeps it higher in the water column while trolled up to 15 knots. Available in six colors with premium finish, this 6 3/4-inch lure includes an integrated rattle that helps attract attention. When a predator commits, a pair of flat forged stainless-steel hooks mounted on heavy duty swivels and linked by a through wire design ensure a solid connection and minimize shake-offs.

3D SHRIMP RTF

Designed with ultra-realistic body contours, colors and movement, the 3D RTF Shrimp is an exceptional bait for anglers looking for the ultimate shrimp presentation in an exposed-hook configuration whether fishing from a pier or in a pass, fishing it tied directly to your main line or under a popping cork. Its innovative design allows it to be worked fast or slow while delivering lifelike micromovements of its appendages. Its custom Duratech soft-plastic body allows the 3D RTF shrimp to be durable all day and, packed with infused scent makes sure when fish bite, they don't let go.

3D SHRIMP WEEDLESS V2

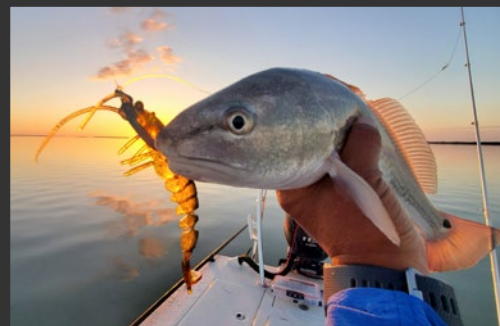

Our 3D Weedless Shrimp just got even better yet with amazing ultra-lifelike details and a compact body that casts a mile. Equipped with a fixed jig hook and double fluorocarbon weedguard, the 3D Shrimp moves through cover and debris with ease, but without sacrificing hookup ratios. Its innovative design allows it to run true even at faster retrieve rates and without spinning. We've shaped the shrimp's legs to flutter on the fall then sit upright on bottom making it incredibly versatile and completely lifelike in presentation. Its built-in rattle combined with a scent-infused Duratech body help this shrimp stimulate feeding at every sensory level.

TPE MUD MINNOW

Designed for skinny water fishing applications, the TPE Mud Minnow gives you a weedless topwater bait you can fish anywhere. The TPE Mud Minnow is designed to pull fish from the heaviest of cover. The TPE body construction gives the bait a life-like look and feel so fish won't let go once they strike it.

- Two Tie Points For Shallow Or Deep Presentations
- 5X Hooks
- Sandeel Holographic Eyes
- Upgraded Bait Keeper
- Perfect Match For Sandeel Tails

SANDEEL

Available in a broad range of sizes, this jig head sports not only a traditional line tie ring mid-forehead, but also a partially recessed line tie toward the nose. This offers anglers two unique methods for presenting this dependable bait to stripers, as well as many different species across a broad geographic range.

BATTLETEK BASS

For the incredibly diverse range of demands placed on the competitive bass angler, our Battletek series gives you the tools you need to tackle any situation. Made of 30-ton high modulus carbon with technique specific tapers and a light weight blank, each Battletek model includes Savage Gear's 1DFR tip reinforcement technology, which strengthens the rod's upper third with a seamless blend of materials. This process fortifies a rod tip and greatly reduces the chances of stress-related failure.

BATTLETEK SWIMBAIT

Developed specifically for anglers looking for a light weight, responsive and durable rods with technique specific tapers ideal for any large swimbait technique. Battletek swimbait rods are made from 30-ton high-modulus carbon with Savage Gear's proprietary 1DRF reinforcement technology. This reinforces each rod blank with uni-directional fiberglass integrated into layers of graphite, increasing the durability of the blank without sacrificing weight or sensitivity. The Battletek Swimbait series is equipped with tangle-free guides, SiC inserts and a double locking Sea Guide reel seat. The series features a 1+1-piece construction that allows for easy transport with all the structural integrity and strength of a 1 piece rod.

BATTLETEK MUSKY

While designed to meet the demands that serious Musky fishermen place on their rods, Savage Gear's Battletek Musky series offer the power to take on any apex predator in any waterway. Its 30-ton high modulus carbon construction is built with technique-specific tapers. The lightweight blanks utilizes our proprietary 1DFR technology which integrates an amazingly thin layer of uni-directional fiberglass within the rod's graphite construction, greatly strengthening the blank while sacrificing neither weight nor sensitivity. We equip these rods with the highest-quality marine-grade 316 stainless-steel guides including SiC inserts as well as a Fuji reel seat, so the Battletek series always delivers uncompromising quality.

E-RIDER KAYAK

A crossover between an inflatable kayak and an inflatable boat, the E-Rider takes the best of both worlds to create a versatile option. The E-Rider's narrow profile helps it zip through water, reaching higher speeds than other boats even with less horsepower.

E-Riders are light, and run great with an inexpensive electric motor, or small gas motor. Its streamlined design also allows it to be paddled with a regular kayak paddle, allowing you to get into tighter, shallower spots that other boats could not dream of reaching.

- 0.9 mm armored PVC sheet main frame
- 8 cm armored PVC drop stitch floor
- Protech Air valves x3
- Light weight 3 section double paddle 8 1/2ft
- Aluminum cross bar seats
- Slide on fin for improved tracking
- Stern engine mount
- One-way water valve in stern
- Foot pump included
- Repair Pro Kit included
- Packing strap included
- Recommend PSI pressure: tube 3.6 psi, floor 10 psi
- 10'9" length, 43 inch width, 11.8 inch height
