37 NEW Lures, 1 NEW Kit

Over 123,000,000 Panther Martins sold and still counting!

NEW WillowStrike™ DualFlash™

NEW or Old - Panther Martins Truly Catch Fish!

Year after year we introduce **NEW** innovative lures that really catch fish. Year after year, our original older Panther Martins still catch fish. That is because we always create lures that truly catch fish.

Tried, Tested & True

This year, as usual, we are introducing many **NEW** lures. In doing that, we fish these lures, test these lures and make sure that they do what all Panther Martins do - truly catch fish!

We are introducing 5 **NEW** WillowStrike™ DualFlash™ Spinners, 4 **NEW** Single Hook Panther Martin Lures, a **NEW** Single Hook 6-Pack Kit, 4 **NEW** WeedRunners™ and 2 **NEW** MiniFly™ lures.

NEW WillowStrike™ DualFlash™ Spinners - featuring 5 **NEW** patterns in alternating colors - larger classic silver and gold blade with a smaller, eye-popping holographic rainbow, fire tiger, black with yellow dots, gold & silver blades. Available in three sizes. See opposite page.

NEW Single Hook Panther Martin Lures featuring 4 **NEW** holographic blade patterns in 2, 4 & 6 sizes. These **NEW** color patterns are guaranteed to seduce smaller trout and bass. See page 4.

NEW Single Hook 6-Pack Kit featuring 6 of our most popular Panther Martin lure colors and using single hooks for those states that require single hooks and for anglers who prefer "catch and release" fishing. See page 4.

NEW WeedRunners™ 4 **NEW** color patterns in 2 sizes featuring fluke/shad style tails and a weedless design that will catch fish in dense vegetation or on open water. See page 5.

NEW MiniFly™ Lures - 2 **NEW** holographic color patterns in our very smallest size. These little demons will be deadly on those smaller fellers ... crappie, pan-fish and trout. See page 5.

In addition to introducing **NEW** lures every year, we keep offering our tried and true lures. And to ensure they always keep catching fish, we continually test and monitor the quality of those lures to make sure they look and work as well as ever.

WillowStrike™ DualFlash™ Spinners!

5 NEW Colors, 3 NEW Sizes

Now DualFlash™ Lures Are Available Using Our Unique Convex/Concave Willow Style Blades

Twice the flash, twice the vibration... all in proven and dramatic Panther Martin® colors & patterns

The same great spinning qualities and sonic vibrations as our Panther Martin® WillowStrike™ blades, multiplied by 2 to provide double the spin action, double the vibration. Using our original shaft through the blade design with Panther Martin's unique convex/concave shape provides a super fast spinning action without a clevis. The two blades are separated with a stainless steel sleeve to ensure the best spinning action. Genuine Gold and Silver plated, spotted and holographic blades provide maximum flash and vibration in the water. This **NEW** WillowStrike™ DualFlash™ series is bound to catch the attention of fish everywhere. Irresistible to Trout, Bass, Salmon and many more species.

NEW Lures for 2022

NEW Holographic Single Hook Spinners!

4 NEW Colors, 3 Sizes

In more and more regions of the U.S., there are requirements to use single hooks in order to make catch and release fishing easier, more practical and safer for the fish. Moreover, more and more anglers are deliberately keeping less fish caught and releasing more fish back into the waterways of America. Both of these trends bode well for the longterm health of fishing in America.

To reach out to long time Panther Martin® customers who are now required to use single hooks and to those anglers who prefer catch & release fishing, we offer four **NEW** Holographic patterns with single hooks. These beautiful **NEW** Holographic Single Hook spinners allow anglers to catch more fish and then safely release them back into the waters where they live.

Also see page 25 for our other Single Hook Spinners.

NEW Lures for 2022

NEW WeedRunners™

4 NEW Colors, 2 Sizes

WeedRunners™ are a first for us in a couple of ways ... they are truly weedless because the hooks are buried in the fluke/shad style soft plastic tails & they catch both fresh and saltwater fish. They are truly universal lures that will work in all parts of the U.S., whether you are fishing weed infested lakes for Bass and Pike or saltwater flats for Redfish, Sea Trout and Snook. WeedRunner™ in-line spinning lures love to find fish in vegetation and timber.

So, it should come as no surprise that this series has been growing steadily since their introduction four years ago. Now, we are introducing 4 **NEW** colors in 2 sizes.

Outfitted with a Mustad® 4/O Black Nickel, Opti-Angle Needle Point, Offset Shank, Extra Wide Bend Hook, buried in a fluke/shad style tail and comes with one extra tail.

Available in 2 blade colors (Gold & Silver), 2 tail colors and 2 sizes - 9WR (3/8 oz.), 15WR (5/8 oz.). Also see pages 8 & 16 for our other WeedRunners™.

NEW MiniFly™

2 NEW Deadly Little Demons

These 2 **NEW** Panther Martin® MiniFly™ Spinners combine smaller size bodies and Holographic blades with 2 of our best-selling Fly patterns to provide a way to catch smaller fish. Using the unique convex/concave Panther Martin® style blade in a smaller size blade & body, this lure opens up fishing in smaller streams to get the smaller fish that are so elusive. The Panther Martin® MiniFly™ series gives the same great spinning action and sonic vibrations of your favorite Panther Martin® Spinners to drive fish crazy. The beautiful holographic colors of these **NEW** lures are bound to attract fish on streams, ponds, rivers and lakes.

Truly effective on Trout, Crappie, Sunfish and Pan-fish. Available in size - 0M - 1/48 oz. Also see page 10 for our other MiniFly™ Spinners.

Panther Martin® SonicStreamer™ Spinners

SonicStreamers™ are Screammers!

10 Colors, 3 Sizes

“We’ve combined the life-like action of the perfect streamer with super flash and sonic pizzazz!

Wowie Zowie, these new Panther Martin® Sonic Streamers™ are a dream to fish. Featuring full-length hair and feathers that allow them to flutter on descent and respond like a streamer fly with the added flash and vibration of a spinner blade. These amazing lures respond instantly to the slightest movement of your rod tip during the retrieve. The smoothness and silkiness with which they move through the water, along with their flash and sonic signals, virtually guarantee vicious strikes. Designed so the feather and hair ride atop the bright metal body leaving the treble hook hanging free. Ideal for trout, bass, pike walleye and more.

Lil' Curly WeedRunners™!

They Wiggle, They Spin, They Call to the Fish!

8 Colors, 2 Smaller Sizes

Panther Martin® WeedRunner™ lures have been gaining popularity since their introduction. Now, we are adding two new colors and two new smaller sizes. But that's not all. We decided to add curly tails to these smaller sizes to give new and interesting swimming action through the water. These new lures are bound to be particularly effective for trout and bass. Best of all, because the hook is buried in the plastic tail, these new lures are, like their larger cousins, totally weedless. That means they can be fished in heavy vegetation and weeds where lunker bass and trout lurk.

Panther Martin® Stinky Garlic & Stinky Anise Scented Hammered Spinners

FISH LOVE THEM!

What are Panther Martin® Stinky Garlic & Anise?

Panther Martin® Stinky Garlic and Stinky Anise Lures are a deadly combination of the natural attraction of scent and the unequalled spinning action and vibration of Panther Martin lures. Not only do they attract fish from long distances, they also mask the human scent that would normally get on the lure.

What makes Panther Martin® Stinky Garlic and Stinky Anise Lures different from others?

Panther Martin® Garlic and Anise Scented Lures use a proprietary blend of 100% natural scent applied in a bulb at the base of the treble hook. These water activated scents are applied to each hook as a durable finish, giving the hook a distinct and very powerful Garlic or Anise scent.

How long does the scent last?

Depending on fishing situations, Panther Martin® Stinky Garlic and Stinky Anise Lures will disperse their scent over the course of an average fishing season. Because the scent is water-activated, fish will still be able to smell the strongly scented hook even when we may not.

**Unique Features of Panther Martin®
Stinky Hammered Spinners**

- Stinky Garlic & Anise Scented Mustad® Hooks
- Hammered Blades Reflect More Light
- Powerful Sonic Vibrations Call To Fish
- Generously Coated with Long Lasting & Durable Natural Garlic or Anise Scent Bulb

All Gold & Silver blades are Genuine Gold or Silver plated.

Panther Martin® HolyRoe™

HolyRoe™ featuring Hammered Holographic Blade with dazzling painted back, Salmon Roe Body with McFlyfoam Egg and Egg Yarn trailer.

These Salmon and Steelhead versions come in larger sizes and feature McFlyfoam eggs and fluffy egg yarns to allure the biggest Salmon & Steelhead. When wet, egg yarn retains its full shape and flutters seductively in stream, river or lake as it is being retrieved. A unique added feature of these lures is that the backs of the blades are painted for double the attraction and double the action. Scents can be added to the McFlyfoam eggs and egg yarn trailers making them even harder to resist.

Available in 3 sizes - 12L, 15L, 18L.

PANTHER MARTIN

Panther Martin® FishSeeUV™

Lures The Fish Will See & Strike

Panther Martin FishSeeUV™ lures have caught the attention of fish nationwide.

The scientific premise of UV lures is simple - fish see colors as if they were under a black light. These lures are truly eye-popping the way humans see them, but if you put them under a black light you will be amazed at the way the UV colors on blades, bodies and Salmon egg beads stand out and call out to passing fish. This makes these lures particularly effective on cloudy days or in murky or muddy waters.

Panther Martin® Go-Glo™ Flash-A-Bou

Double The Attraction To Double The Action!

Our Panther Martin Go-Glo™ lures attract fish two different ways. Go-Glo lures flash bright colors and glow by themselves in shallow or deep waters. The Go-Glo™ paints are far brighter than traditional glow paints and glow far longer than traditional glow colors.

They are formulated with a high concentration of glow in the dark and UV pigments. This results in a finish that reflects UV light and emits its own light in murky, deep or dark water conditions.

And that is not the only benefit of these unique Go-Glo™ lures. The Flash-A-Bou iridescent fibers create an added flash and reflection around the hook and hold their shape as they are retrieved through the water, giving these lures a natural minnow action as they run through the water.

The combination of the Go-Glo™ colors and Flash-A-Bou fibers give these Panther Martin lures two powerful added attractants to catch more Trout, Bass, Perch, Pike and Pickerel. Available in 7 colors and 3 sizes

PANTHER MARTIN
Panther Martin®
High Lake Trolls

This is the more classic approach to High Lake Troll Rigs. But of course, we never do anything completely traditional, so instead of having a plain plastic rudder and traditional blade, we created a holographic plastic rudder with eye-popping holographic colors. These High Lake Trolls come complete with a single hook to outfit your favorite live bait. Our Panther Martin blades create a unique spinning action which make them a more effective fish attractor than traditional style Lake Troll Rigs, which usually use a clevis to attach the blades. Simply put, these Lake Trolls start spinning sooner, send out sonic vibrations that "call to the fish" and are far more effective than others on the market, especially on really big lake Trout & Kokanee! They are particularly popular in the California, Montana, Colorado, Oregon & Washington states.

Size 3 - 3/8 oz.
Size 5 - 5/8 oz.

Unique Superior Frog Features

- High-density outer body provides extra weight for longer casts even into the wind with greater contact control during retrieve.
- Low-density inner core provides extra consistent, permanent flotation - these frogs will never sink or become waterlogged.
- Casts 70-90 feet and always lands on its belly.
- Floats with eyes just above the water.
- Lifelike kicking action of legs drives Bass crazy!
- Natural soft plastic body shape makes these irresistible to Bass!
- The Weedless hook goes through the thickest vegetation and is pointed down - where Bass come from!
- Deadly Attraction - catches Bass just floating in lily pads or weeds.
- Superior Frog is also very effective for catching Northern Pike!
