

# Mason

**Mason**

**T-Line Super strong premium monofilament line.**

**For fresh & salt water fishing — spinning & casting.**

**“T-LINE”** Monofilament is a winner for the fisherman. Formulated with superior flexibility and limpness, high abrasion resistance, greater knot strength. T-LINE's low stretch, high tensile strength gives excellent hook setting capabilities. Built in self lubrication makes casting effortless combined with smaller diameters. Self-selling display packaging makes T-LINE eye-catching to the discriminate fisherman. MADE IN USA.  
Clear or Soft Brown.

## “LINE TAMER”

- Easily transfer fishing line from spool to reel without assistance.
- Eliminates tangles and reduces twists found in hand transfer.
- Mounts on tables, counter tops, or work benches.
- Fits all commonly available fishing line spools.
- With return crank handle, you can save good, used line by rewinding it back onto the spool.
- Made of strong, durable ABS plastic, for years of customer satisfaction.

LINE-TAMER's handsome, four color package sells strongly at point-of-purchase. Its versatile design allows for stacking on shelves or hanging on pegboard or gondola for a high-impact, self-selling display.

## “SURF CASTER” NYLON SQUIDDING LINES

Designed for salt water and fresh water fishing. A favorite of the surf caster, also for trolling. Soft braided with built-in lubrication to ensure easy casting and long life. Pre-stretched and flattens out on the reel. Color is tan, which allows line to pick up color of water being fished. **Tan.**

# Tiger Braid™

**Mason**

## Super Strong - Low Stretch

Mason offers braided high density Gel-Spun Polyethylene blended with polyester. This special braid makes knot tying easier and improves castability. "Tiger Braid" has high sensitivity making it excellent for bottom fishing, casting and trolling. Tiger braid is much stronger per diameter when compared to traditional braided lines.
