2021 PRODUCTS

FREEDOM

A D V A N T A G E

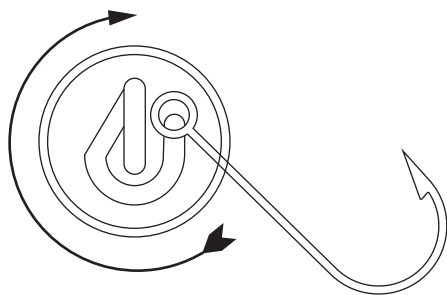

OTHER ADVANTAGES

Swing Hooks: less leverage

Customizable: use brand/size of hook that you want to match the presentation you are using

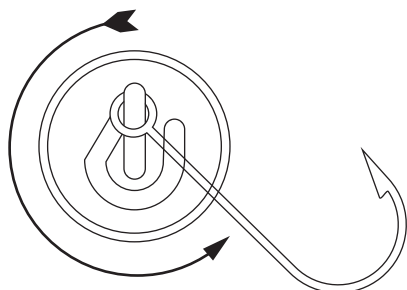

Removable Hook System: quick changes for more casts

Tools For Every Situation: ability to fish how you want

INSTALLING THE HOOK

- Hold the hook in the upright position.
- Place the eye of the hook with a slight 45 degree angle over the start of the wire wrap (wire must be inserted from bottom of hook eye) and firmly slide the hook down clockwise along wire until hook stops at the 12 o'clock position.
- Pull the hook away from jig head to lock into place.

REMOVING THE HOOK

- Hold the hook firmly and turn it over until it is facing the 11 o'clock position.
- Push the hook in following the inward direction of the wire wrap.
- Follow the direction of the wire wrap counter clockwise until the hook slides off the wire wrap.

MISCHIEF MINNOW

NEW

GLACKING TOPWATER BAIT

The Freedom Mischief Minnow is a new take on topwater fishing. It sits slightly tail down at rest and when you start your retrieve it explodes to life. Sound and flash from the custom blade create a surface commotion while the side to side rolling & hunting for center action of the body creates a wake on the surface that fish cannot resist.

BLADE BAIT

The most versatile Blade Bait on the market. The Freedom Blade Bait is a three in one tool to get the job done through all four seasons. The lure features multiple ways to rig the hooks to match your desired presentation. The most unique feature is the ability to rig the double hook on the top of lure head and lock it into place on the custom design hook notch.

FT JIG SERIES

NEW

FT SWIM JIG

The FT Swim Jig is purpose built for swimming through a variety of open water structure and cover. It swims through with ease thanks to the vertical 30-degree line tie that is perfectly aligned through the center of the jig head. The FT Swim Jig also boasts Freedom's proprietary no-slip trailer holder which keeps your soft plastics practically glued to the premium black nickel hook.

FT GRASS JIG

Grass is always a factor practically anywhere you fish bass and the FT Grass Jig is purpose built to handle the thickest vegetation with ease. Built around Freedom's proprietary no-slip trailer holder and premium super-stiff fiber guard, this innovative design keeps your soft plastics pinned to the premium black nickel 30-degree Jig Hook no matter how much the grass pulls on your trailer.

FT FOOTBALL JIG

Whether dragging through gravel, chunk rock or ledge structures, the FT Football Jig virtually eliminates hang-ups with the wide-wobble design and the serrated head design gives the jig extra action on deflections. Premium black nickel hooks, moderate strength brush guard and custom designed 50-strand silicone skirts finish off this bottom dweller.

FT STRUCTURE JIG

The FT Structure Jig will come through rock, grass, trees, and brushpiles with ease thanks to the wedge-shaped head and horizontal line tie. This multi-purpose jig features the custom trailer keeper that comes on all FT jigs to hold your plastic trailer tight. The FT Structure Jigs are hand-finished with 50-strand silicone skirts and feature premium black nickel hooks and integrated weed guards.

FOOTBALL HEAD

This unique head design minimizes snags while enhancing your bait's action upon deflection. The head allows the Jig to land in the optimal upright strike position. The quick change hook system allows for customization to fit any situation and the bait keeper allows your trailer to stay on longer.

STEALTH SWIM JIG

The Stealth Live Action Hybrid Jig brings additional life to your soft plastic trailer thanks to its unique design that allows your hook to swing freely behind the head. The unique attachment also allows you to change out your hook quickly and easily depending upon the desired presentation. The line tie is precisely positioned to provide weedless performance, and a quality silicone skirt furnishes additional lifelike action.

JARED LINTNER STEALTH SWIM JIG

From end to end, each element of the Freedom Tackle Jared Lintner Custom Stealth Swim Jig has been personally selected by MFL pro, Jared Lintner in an effort to give anglers a true competitive edge. Featuring a Trokar Big Nasty Offset Worm Hook and a screw lock bait keeper, the Jig utilizes Freedom's unique hook attachment system to give swimbaits an unregulated action. The hook attachment system also gives anglers the ability to change out hooks on the fly without having to re-tie.

HYDRA SWIMBAIT HEAD

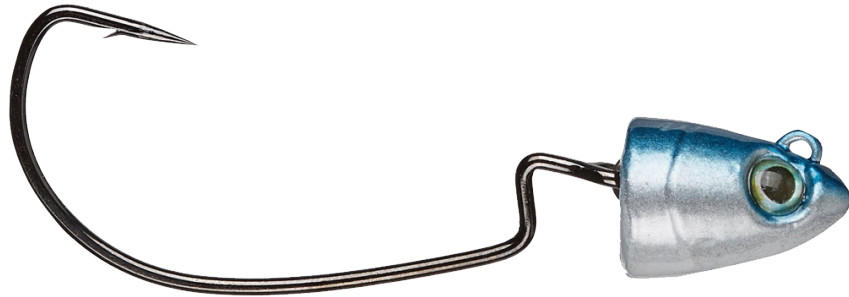

The Hydra Live Action Hybrid Jig features a unique, life-like hydrodynamic head design complete with a durable, hardened epoxy finish, 3D hologram eyes, and a sonic brass echo chamber. This jig also utilizes the internal advanced interchangeable hook design which allows you to customize with any brand or style of hook depending on your settings and conditions. The proprietary connection is housed inside of a brass echo chamber that generates an attractive acoustic pitch throughout the water. In addition, fish are not able to use the jig as leverage when trying to shake loose, which results in more fish landed. Two heads per pack.

HERRING CUTBAIT

This hard-bodied trolling lure has a tantalizing roll when used in many different trolling applications. It has the perfect action when trolled behind a flasher, a paddle or on its own. The Herring can be run behind a dipsy or down-rigger to cover the complete water column from top to bottom. Includes 5' of 50lb mono leader, multi-bearing speed swivel, and VMC siwash hook.

TURNBACK SHAD

The Freedom Tackle Turnback Shad is the perfect vertical jig for open water or through the ice. The lure features a full metal body that swings freely on the metal line tie shaft. With a jerk of the rod the lure will dart off in random directions, turn around and swim back the other direction it came from. The Glass beads on the metal shaft offer visual and audio attraction to compliment the beautifully sculpted metal body.

HAMMERED MINNOW SPOON

Freedom Tackle has taken its highly successful Minnow and kicked it up a few notches in creating the new Hammered Minnow. Incredible flash will come from the hammered scale pattern finish as the lure sinks horizontally upon fall. The Hammered Minnow weighs in almost double its original cousin because of an all metal bead on the belly so it will fall faster but still maintains its tantalizing side to side wobble. The new lure sports a single hook on the rear with a bead attractor. The quick change clevis on the rear allows anglers to quickly change bead colors to match the conditions with the extra hooks and beads included in the package. A great addition to your ice fishing arsenal.

MINNOW SPOON

The Freedom Minnow jigging spoon delivers a combination of flash, one-of-a-kind action, and bait-fish appeal that all species find irresistible. Designed with a high-quality metal spoon, the Freedom Minnow features a metal shaft running vertically through the body. On the top and bottom of the shaft, the Freedom Minnow is fitted with a metal bead and a glass bead that bang against the body to create a unique underwater sound.

SPINNERBAIT

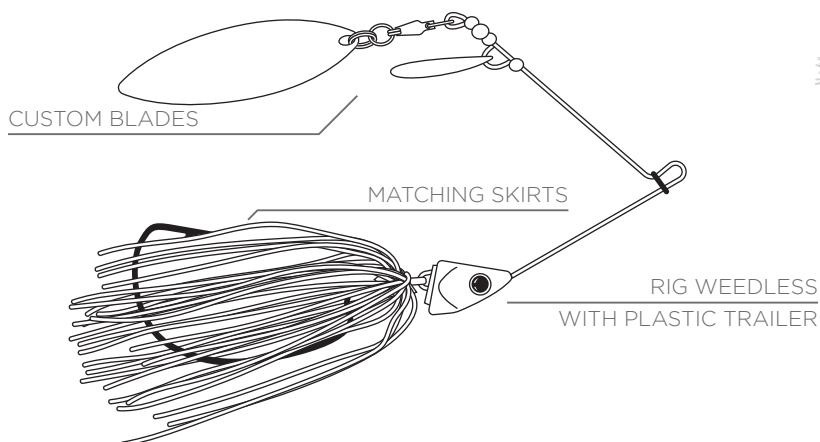

Built using Freedom's revolutionary hybrid head design, the Freedom Live Action Spinnerbait grabs fishes' attention with a lethal combination of free-swinging action and vivid flash. For maximum movement, the hook on the Freedom Live Action Spinnerbait is attached using their advanced interchangeable hook design which gives trailers a natural swimming presentation.

SWING BUZZ

The Freedom Swing Buzz Buzzbait is an innovative twist on the traditional buzzbait. Featuring the Freedom swing hook technology anglers can now completely customize their buzzbait offering. Fish it with the skirt or customize with your favorite toad on the free-swinging hook. The free swinging hook puts the hook point in an optimal position no matter the direction the fish slurps down the offering. The blade and strong wire frame creates a very unique sound, right out of the package, that attracts fish from afar with bone jarring strikes.

MARABOU SWING JIG

The Freedom Marabou jig is a must for any serious walleye or small-mouth angler. Featuring flowing marabou and the Freedom Advantage hook system, anglers have never had so many features packed into a marabou jig. The keel weighted head keeps the razor sharp hook in the upright position ready for your hook set. The Freedom Marabou head is also eco-friendly and can be fished anywhere in North America. The Marabou live-action hybrid jig is the first hair jig on the market that has a swing hook, ensuring that the fish has minimal leverage once hooked.

ECO-FRIENDLY
MATERIALS

ZODIAC HYBRID BALL JIG

The Zodiac Live Action Hybrid Jig utilizes the internal advanced interchangeable hook design to provide a jig head that's full of action. The hook swings freely behind the head and can easily be switched out depending on the conditions. The unique design and additional hooks also allow for a weedless presentation and an enhanced action when deflected off of debris or structure. In addition, fish are not able to use the jig as leverage when trying to shake loose, which results in more fish landed.
