## 3/4oz LAUNCH FROG

Chuckin' Ribbits (frog fishing) is all we do at SCUM FROG® and the all-new, ultra-long casting Launch Frog is the new pinnacle of technical design and performance in a topwater frog, crafted from 100s of hours of on-the-water product testing and refinement. The key to the Launch Frog's performance is the unique tungsten "parasite" weight system which adds weight without bulk to the hook shank.

The Launch Frog gives you maximum distance in a top water frog while premium Owner® hooks and high compression body deliver the highest hook-up rate possible in a hollow body frog. The Launch Frog delivers a super-soft, high-compression and wide body design wrapped around a premium 5/0 Owner RED double frog hook for maximum water displacement and buoyancy.
