WE WORK

WHO WE ARE

We are passionate about the activities we pursue to the point that those around us cannot understand. As **VISIONARIES**, we lay at night under the stars, wondering if there are better views somewhere else, ready to take on the next adventure before the current one is even over. Reflecting from the top of mountains, we are left with pleasant exhaustion after an intense climb, **FEARLESSLY** planning the next one that will be a little more challenging.

We daydream about working the land in preparation for the next hunting season, continually finding ways to improve upon the previous year's results. We transition to **RELENTLESSLY** chasing that ever-elusive trophy that, even when faced with failure, somehow fuels the following year's daydreams.

We set out in pursuit, **INQUISITIVE** about the weather, geography, and what's around the next corner or over the next horizon to find the ideal spot. Questioning our judgment, regardless of the day's success, we watch the sun go down as our vessels head to shore, left believing tomorrow could be better.

We go to the range intent on improving our skills, for whatever our favored discipline may be, **AMBITIOUS** to become the most accurate and precise.

Regardless of the activity, the outdoors calls us in **COLLABORATION**, to share the moments that matter, in a way that delivers satisfaction through failures and success. A never-ending battle between us and our "hobbies" that always leaves us wanting....

WHERE WE PLAY!

Turning pursuit into passion, AOB delivers brands that move you because our success is measured by moments that matter.

2021 NEW PRODUCTS

OUR STORY

Everyday we are living *The Ultimate Lifestyle*™ - making the most innovative, durable, and essential tools and gear designed for one thing alone: success on the water.

As creators of the iconic, *NON-SLIP GRIP* we're in relentless pursuit of consistently upping our game. That's why we continue to grow our versatility and offerings, while always staying true to our DNA.

2021 will be an exciting year as we continue to amplify BUBBA as a premium lifestyle brand through introduction of new tools and accessories, while also expanding into new and exciting categories, that were previously uncharted waters.

ust™

2021
new products

the new ust

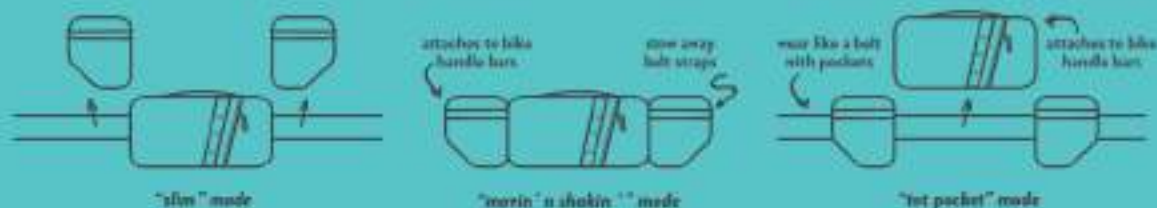

Since 1936 ust has been creating survival, camping and outdoor equipment. Recently, we moved headquarters from Jacksonville, FL up to Columbia, Mo... and we've taken this opportunity to re-imagine what ust can be moving forward. The ust crew is driven by our calling to explore outdoors. We feel incredibly lucky to have the rolling hills and hollers of the Ozark Mountains for our backyard... product testing, exploring, work, play... the lines get blurry.

Our ever-present drive to "be outdoors" translates into reliable, problem-solving gear for you to use in your own outdoor adventures. As a brand, our goal is to inspire and cultivate people's love of all things outside. We set out on this path with strong intention going forward... to create gear that allows EVERYONE to enjoy the activities that give us so much happiness.

 Hooyman™

YOUR LAND. YOUR LEGACY.™

What started in Appleton, Wisconsin as a father and son's passion for Whitetail hunting is now one of the leading names in land management. After the first portable tree saw came to market in 2008, Hooyman® continued to innovate with ground-breaking land management tools upholding the same values the brand was founded on; quality, innovation, and service valuing every customer relationship.

Regardless of acreage, Hooyman® is tying together land managers across the country through mutual respect and admiration for the land and the animals that thrive off it. We are a brand made for the conservationist by the conservationist—preserving the experience for future generations.

Hooyman® is no longer just a name; it's a lifestyle.

A way to benefit the land

UNIVERSAL LITHIUM-ION 35LB HAND SPREADER #1149081

Hooymann® is breaking into land management with the most innovative hand spreader on the market. The universal 24 volt (accepts 18-24 volts) spreader is the biggest chest spreader in the family and stands alone at the top of the market as the most versatile model as it accepts most major brands of lithium-ion batteries. Made for large plots and all day use. The easy-fill hopper lays on its back to prevent seed loss while filling. The precise seed rate adjustment can adjust from clover and turnip seed to soybeans and corn. The front carry harness detaches from the hopper for easy-fill and easy lifting to alleviate back and shoulder pain.

- Compatible with most 18-24 volt Li-ion handheld tool batteries, comes with 8 different adapters
- Feed rate and activation is in one movement, unlike all other spreaders where they are separate
- High efficiency motor. Patent pending throwing disc design that launches seed 10-25 ft.
- Single motion activation and feed rate control
- Easy-fill with translucent hopper
- Larger hopper for less time spent filling
- Secure and easy seed rate adjustment
- Durable lightweight motor with variable disc speed control
- Comfortable front harness carry system that detaches from the hopper for easy filling
- UPC: 661120107637

MANUAL BROADCAST 35LB SPREADER #1135909

Hooyman® is breaking into land management with the top of the line manual broadcast spreader. Keeping all of the innovative designs without the battery power allows this affordable spreader to compete with the simple bag feeders on the market. The easy-fill hopper lays on its back to prevent seed loss while filling. The precise seed rate adjustment can adjust from clover and turnip seed to soybeans and corn. The front carry harness detaches from the hopper for easy-fill and easy lifting to alleviate back and shoulder pain.

- Non slip grip crank handle
- Easy-fill hopper
- Secure and easy seed rate adjustment
- Durable and lightweight hopper design
- Comfortable front harness carry system that detaches from the hopper for easy filling

H-GRIP™ POST DRIVER #1135911

Hooyman® H-Grip™ fence post driver is the first in its class to add comfort and grip to a traditional steel post driver. No more skinny metal bars to grab onto. This post driver features the proprietary No-Slip H-Grip™ technology on the handles giving you a comfortable and secure grip allowing the post driver to be more effective with every hit. The angled handles keep the driver closer to your body allowing more power through every hit.

Built for generations.™

BUILT FOR WORKING HANDS

Founded in 1958, Old Timer created a knife built with durability in mind but also a tool that was comfortable enough to work with day after day. For over 60 years now, Old Timer has created knives for the working class. Knives built for those who don't rely on others to get the job done. We didn't just stop there; as the years went on we have created knives for the outdoorsman.

Old Timer is more than just a knife - it's a timeless tool meant to be passed down. When you craft a knife designed to last generations it becomes more than just a tool. It becomes memories made, lessons learned, and values taught.

Passing on a knife is more than a gift.

Wheeler®

ENGINEERED TO FIT THE JOB

2021 NEW PRODUCTS

A collection of Wheeler gunsmithing tools and parts on a workbench. The tools include a hammer, a screwdriver, a hex key, and a punch. There are also various gun parts, including a barrel extension, a gas tube, and a magazine. The background is a dark, textured surface with some technical drawings and text, including "Wheeler", "LTA", and "15 Carbine".

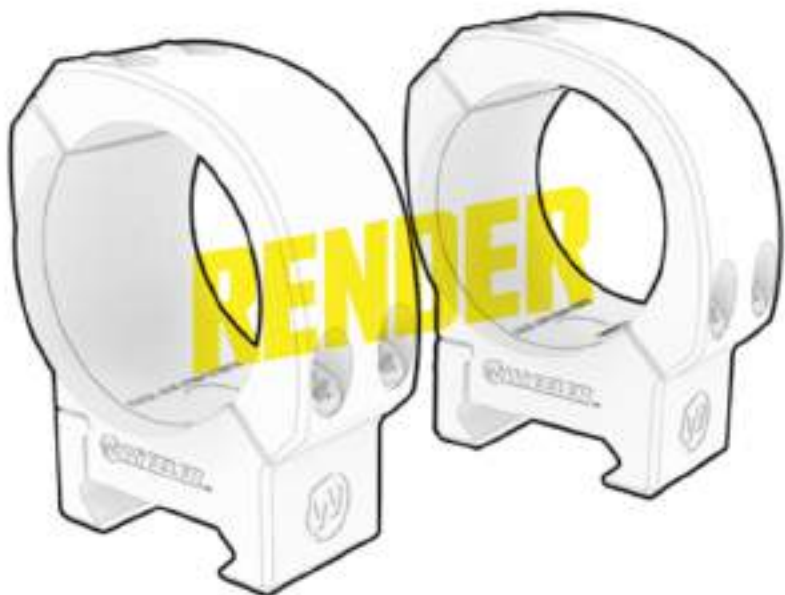

You're here for precision. You aren't just any shooter. You are a gunsmith. You have the knowledge to do the work, the experience to get it done right; all you need are the right tools. Time to roll up your sleeves and get to work because no one knows your gun better than you. That's why we make a wide array of high quality gunsmithing tools for all your firearms. From handguns to long guns, Wheeler® is engineered to fit the job.

BATTERY LIFE

Battery life varies depending on use but having years of experience dealing with battery powered accessories, we have developed the means to maximize potential battery life. For example, the CTS-1000 has a calculated run time close to a decade at medium brightness & the CTS-1400 utilizes innovations in intelligent battery management systems that senses motion and shuts off when not in use. As with the vast majority of our current products, all of our electronic sights and Riflescopes are included in the Free Batteries for Life program.

CTS - 1000

ROUND BUTT OR SQUARE BUTT?

All Smith & Wesson revolver frames are either Round or Square Butt. Our grips are precisely designed to fit one or the other. To get the right Lasergrips® model, you'll need to know which type you have. Fortunately, all you have to do is remove your stock grip panels and look at the frame.

- ▶ Quick and easy installation
- ▶ Works with any LaserLyte™ Laser Trainer Systems
- ▶ Includes two interchangeable shells for a custom fit
- ▶ Modes: Constant, Pulse, Training

It is a laser sight, it is a laser trainer, it is all-in-one on your gun. The kit comes with two different size housings for a custom fit. The laser gun sight will put you accurately on target and adjusts to the point of impact. The constant dot mode or flashing dot mode is programmable to the shooter's needs. The auto-off feature will turn the laser off after 6 minutes to save battery life. The sound-activated laser trainer flashes the laser for 1/10th of a second. Train at home with the comfort of your favorite couch and air conditioning saving time on trips to the range and ammo.

A close-up photograph of a Smith & Wesson knife. The top portion shows a black handle with a fine, pebbled texture. On the handle, the Smith & Wesson logo (a circular emblem with a figure) is embossed in white, followed by the brand name "Smith & Wesson" in a white, serif font. Below the handle is a silver-colored metal blade with a smooth finish. The bottom portion of the image shows a yellow-green handle with a similar pebbled texture, featuring a faint, embossed version of the Smith & Wesson logo. The background is a dark, textured surface.

A collection of knives and sharpening tools is arranged on a light-colored wooden surface. In the foreground, a large knife with a black handle and a silver blade is prominent. Behind it, a smaller knife with a yellow handle and a silver blade is visible. To the right, a white sharpening stone with a black top layer is shown, with the brand name 'Made in Germany' visible on its side. The background is a dark, textured surface.
