CAMILLUS
Quality Knives Since 1876

**7" HT-7™
TITANIUM BONDED®**

A great skinning knife with plenty of belly and features 3.25" Titanium Bonded® blade that is corrosion-resistant and stays sharper longer. The polished Micarta® handle is extremely resistant to water, rot, humidity or corrosion, and has a lanyard hole. Lifetime Warranty. (Camillus 19218)

**7" WESTERN® KOTA™
TITANIUM BONDED®**

All-purpose knife features 3.25" Titanium Bonded® full-tang 420 Stainless Steel blade that is corrosion-resistant with solid edge holding capabilities. Easy to sharpen. The ergonomic G10 handle is impervious to moisture, liquid and physically stable under climate changes. Features lanyard hole and nylon sheath. Lifetime Warranty. (Camillus 19202)

**7.25" TYRANT™
CARBONITRIDE TITANIUM®**

A very comfortable favourite with many hunters and features a 3" Carbonitride Titanium® Low Stick D2 steel blade that is corrosion-resistant with exceptional edge retention. The composite G10 handle is impervious to moisture, liquid and physically stable under climate changes. Features lanyard hole with paracord loop. Leather sheath with built-in sharpener. Lifetime Warranty. (Camillus 19144)

**7.75" FOWL AND FISH™
TITANIUM BONDED®**

Great for all bird processing and features 3.5" full-tang Titanium Bonded® 440 Stainless Steel blade that is stain and corrosion-resistant. The Micarta® handle is extremely resistant to water, cold, heat, rot and corrosion. Includes leather sheath. Lifetime Warranty. (Camillus 18375)

**8" TIGERSHARP™
TITANIUM BONDED®**

By far the best high quality value in replaceable blade knives. It features 3.35" Titanium Bonded® corrosion-resistant blade that stays sharper longer and is fast, simple and safe to replace the blade. The handle is one of the strongest and most rigid glass filled nylon composites with a convenient non-slip grip. Includes 1 straight edge blade and 1 serrated blade. Lifetime Warranty. (Camillus 19132)

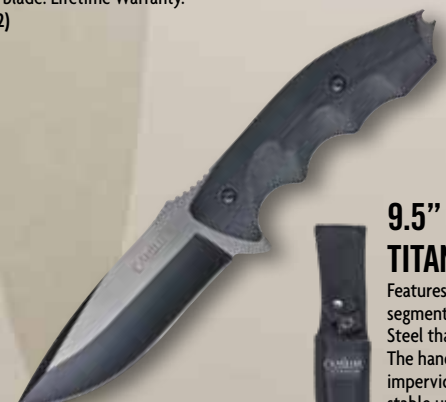

8.5" KPK-3 CARBONITRIDE TITANIUM®

The ultimate in comfort and versatility and features Carbonitride Titanium® Non-Stick AUS-8 Japanese Stainless Steel blade. AUS-8 ranks among the hardest, toughest, most rust-resistant knife alloys. The handle is one of the strongest and most rigid comprised of ergonomic glass filled nylon and thermoplastic rubber. Lifetime Warranty. (Camillus 19286)

**8.5" KJ WARDEN™
CARBONITRIDE TITANIUM®**

Extremely versatile and ergonomic to grasp. It features 3.25" Carbonitride Titanium® AUS-8 Japanese Stainless Steel blade. Non-Stick. AUS-8 ranks among the hardest, toughest, most rust-resistant knife alloys. The handle is one of the strongest and most rigid comprised of ergonomic glass filled nylon and thermoplastic rubber with lanyard hole. Lifetime Warranty. (Camillus 19287)

**9.5" SOAR™
TITANIUM BONDED®**

Features 4.25" full-tang Titanium Bonded® segmented blade comprised of 440 Stainless Steel that is stain and corrosion-resistant. The hand ground ergonomic G10 handle is impervious to moisture, liquid and physically stable under climate changes. Features handguard, lanyard hole and nylon sheath. Lifetime Warranty. (Camillus 19216)

**6.25" CAMLITE™
CARBONITRIDE TITANIUM®**

Features 2.25" Non-Stick Carbonitride Titanium® 440 Stainless Steel blade that is resistant to wear, staining, and damage. Easy to sharpen. The lockback handle is one of the strongest and most rigid glass filled nylon composites with a Camillus bayonet pattern etched into the handle surface. Lifetime Warranty. (Camillus 19200)

**7" VOLARY™
CARBONITRIDE TITANIUM®**

Very versatile in its grip options and features Carbonitride Titanium® AUS-8 Japanese Stainless Steel blade. Non-Stick. AUS-8 ranks among the hardest, toughest, most rust-resistant knife alloys. The handle is one of the strongest and most rigid comprised of ergonomic glass filled nylon and thermoplastic rubber with lanyard hole. Lifetime Warranty. (Camillus 19284)

**7" EDC3™
CARBONITRIDE TITANIUM®**

Features 3" Carbonitride Titanium® drop point partial serrated AUS-8 Japanese Stainless Steel blade. Non-Stick. AUS-8 ranks among the hardest, toughest, most rust-resistant knife alloys. The Stainless Steel handle has a dual thumbstud. Lifetime Warranty. (Camillus 19166)

**7.25" TIGERSHARP™
TITANIUM BONDED®**

By far the best high quality value in replaceable blade knives. It features Titanium Bonded® blade, corrosion-resistant that stays sharper longer. The handle is one of the strongest and most rigid glass filled nylon composites with a non-slip grip. Lifetime Warranty. (Camillus 19131)

**8" SHATTER™
CARBONITRIDE TITANIUM®**

Features 3.5" AUS-8 Japanese Steel Carbonitride Titanium®, smooth Non-Stick edge blade. AUS-8 ranks among the hardest, toughest, most rust-resistant knife alloys. The handle is one of the strongest and most rigid comprised of glass filled nylon composites. Lifetime Warranty. (Camillus 19280)

**8" VORTEX™
CARBONITRIDE TITANIUM®**

Features 3.25" Carbonitride Titanium® AUS-8 Japanese Stainless Steel Non-Stick blade. AUS-8 ranks among the hardest, toughest, most rust-resistant knife alloys. The black G10 handle is impervious to moisture, liquid and physically stable under climate changes. Features dual thumbstud, liner lock, lanyard hole and pocket clip. Lifetime Warranty. (Camillus 19205)

**8" CHARGE™
CARBONITRIDE TITANIUM®**

Features 3.25" Carbonitride Titanium® AUS-8 Japanese Stainless Steel Non-Stick blade. AUS-8 ranks among the hardest, toughest, most rust-resistant knife alloys. The coyote brown G10 handle is impervious to moisture, liquid and physically stable under climate changes. Features dual thumbstud, liner lock, lanyard hole and reversible belt clip. Lifetime Warranty. (Camillus 19207)

CARNIVORE[®] X

18" CARNIVORE[®] X TITANIUM BONDED[®] MACHETE

Features 12" full-tang Titanium Bonded[®] Stainless Steel blade that is corrosion-resistant and stays sharper longer. Perfect for cutting, digging, sawing, and chiseling. The Ballistic Nylon sheath is thick and tough. Includes removable trimming knife with sheath. Lifetime Warranty. (Camillus 19236)

KNIVES / SHEATHS

2.5" TITANIUM BONDED® BAIT KNIFE

Features visible full-tang Titanium Bonded® German 4116 Stainless Steel blade that is corrosion-resistant. Precision ground edge that stays sharper longer. The handle has Cuda scale pattern which allows for a non-slip grip. Lifetime Warranty. (Cuda 18834)

3" TITANIUM BONDED® NET KNIFE WITH SHEATH

Features visible full-tang Titanium Bonded® German 4116 Stainless Steel blade that is corrosion-resistant. Precision serrated edge that stays sharper longer. Perfect for cutting netting and line. The Cuda scale pattern handle provides a secure non-slip grip. Includes sheath. Lifetime Warranty. (Cuda 18099)

6.5" TITANIUM BONDED® FOLDING FILLET KNIFE

Features visible full-tang German 4116 Titanium Bonded® Stainless Steel blade that is corrosion-resistant and stays sharper longer. Features liner lock. The Cuda scale pattern handle provides a secure non-slip grip. Lifetime Warranty. (Cuda 18205)

7" TITANIUM BONDED® WIDE FILLET KNIFE

Features visible full-tang German 4116 Titanium Bonded® Stainless Steel blade that is corrosion-resistant. Precision ground edge that stays sharper longer. The wide blade has oversized backbone so it is thick and strong. The Cuda scale pattern handle provides a secure non-slip grip. Lifetime Warranty. (Cuda 18090)

5" TITANIUM BONDED® FILLET KNIFE WITH ROE SPOON

Features visible full-tang Titanium Bonded® German 4116 Stainless Steel blade that is corrosion-resistant. Precision ground edge that stays sharper longer. The Cuda scale pattern handle provides a secure non-slip grip. Lifetime Warranty. (Cuda 18094)

6" TITANIUM BONDED® CURVED BONING KNIFE

Features visible full-tang Titanium Bonded® 4116 German Stainless Steel blade that is corrosion-resistant and stays sharper longer. Precision ground blade edge. The Cuda scale pattern handle provides a secure non-slip grip. Lifetime Warranty. (Cuda 18833)

7" TITANIUM BONDED® FILLET KNIFE

Features visible full-tang Titanium Bonded® German 4116 Stainless Steel blade that is corrosion-resistant. Precision ground edge that stays sharper longer. The Cuda scale pattern handle provides a secure non-slip grip. Includes sheath. Lifetime Warranty. (Cuda 18124)

9" TITANIUM BONDED® FILLET KNIFE

Features Titanium Bonded® Stainless Steel blade that is corrosion-resistant and stays sharper longer. The Cuda scale pattern handle provides a secure non-slip grip. Includes sheath. Lifetime Warranty. (Cuda 18143)

6" PROFESSIONAL SERIES NON-STICK FILLET KNIFE

Features visible full-tang Titanium Bonded® USA 40A Stainless Carpenter Steel blade. Non-Stick and corrosion-resistant with a precision ground edge. Fresh and salt water use. Features 47 Layer, compressed, cold molded Micarta® handle and a custom hard molded sheath. Lifetime Warranty. (Cuda 18125)

PROFESSIONAL TITANIUM NONSTICK

6" PROFESSIONAL SERIES NON-STICK CURVED BONING KNIFE

Features visible full-tang Titanium Bonded® USA 40A Stainless Carpenter Steel blade. Non-Stick and corrosion-resistant with a precision ground edge. Fresh and salt water use. Features 47 Layer, compressed, cold molded Micarta® handle and a custom hard molded sheath. Lifetime Warranty. (Cuda 18128)

9" PROFESSIONAL SERIES NON-STICK FILLET KNIFE

Features visible full-tang Titanium Bonded® USA 40A Stainless Carpenter Steel blade. Non-Stick and corrosion-resistant with a precision ground edge. Fresh and salt water use. Features 47 Layer, compressed, cold molded Micarta® handle and a custom hard molded sheath. Lifetime Warranty. (Cuda 18127)

PROFESSIONAL TITANIUM NONSTICK

TITANIUM BONDED® MARLIN SPIKE FOLDING KNIFE

Features Titanium Bonded® German 4116 Stainless Steel partially serrated blade. Corrosion-resistant and stays sharper longer. Features a rigid, lockable marlin spike that is great for loosening knots. The Cuda scale pattern handle provides a secure non-slip grip. Lifetime Warranty. (Cuda 18092)

FISHERMAN'S KNIFE SHEATH

Ultra-light and features a water drain system. Reversible belt loop conveniently allows for a right or left fit. Lifetime Warranty. (Cuda 18840)

*"For Fishermen who want the
ultimate in performance."*

CUTTERS / PLIERS

SHEARS / CLIPPER / FORCEPS

8" TITANIUM BONDED® STAINLESS STEEL PLIER WITH RING SPLITTER

Features visible full-tang Titanium Bonded® Stainless Carbon Steel blades, integrated crimper and long nose for removing hooks. Built in fluorocarbon and mono cutter. Stays sharper longer. Cuda scale pattern, non-slip grips. Lifetime Warranty. (Cuda 18112)

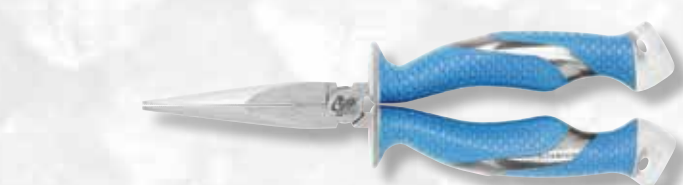

9" TITANIUM BONDED® STAINLESS STEEL PISTOL GRIP PLIERS

Features visible full-tang Titanium Bonded® Stainless Carbon Steel blades, integrated crimper and long nose for removing hooks. Built in fluorocarbon and mono cutter. Cuda scale pattern, non-slip grips. Lifetime Warranty. (Cuda 18096)

10.25" TITANIUM BONDED® STAINLESS STEEL LONG NEEDLE NOSE PLIERS

Features visible full-tang Titanium Bonded® Stainless Carbon Steel blades, integrated crimper and long nose for removing hooks. Built in fluorocarbon and mono cutter. Cuda scale pattern, non-slip grips. Lifetime Warranty. (Cuda 18113)

8.75" TITANIUM BONDED® NEEDLE NOSE PLIERS

Features visible full-tang High-Carbon Titanium Bonded® Steel blades and jaws with a high-leverage compound action. Features integrated wire and mono cutter. Cuda scale pattern, non-slip handle grips. Lifetime Warranty. (Cuda 18828)

7.5" TITANIUM BONDED® ALUMINUM ALLOY PLIERS

Features visible full-tang, Aluminum Alloy construction. Integrated Titanium Bonded® Tungsten Carbide wire, high-leverage mono and braid compound cutters. Cuda scale pattern, non-slip handle grips. Includes convenient lanyard. The Ballistic Nylon sheath is thick and tough. Lifetime Warranty. (Cuda 18846)

11" TITANIUM BONDED® CRIMPER

Features features visible full-tang Titanium Bonded® Stainless Steel wire cutters. Stays sharper longer. Cuda scale pattern, non-slip handle grips. Lifetime Warranty. (Cuda 18836)

3" TITANIUM BONDED® MICRO SCISSORS

Features Titanium Bonded® blades, cuts mono and braided line and stays sharper longer. Dual micro-serrations. Oversized Cuda scale pattern thumb bows for non-slip comfort and control. Lifetime Warranty. (Cuda 18826)

5.5" TITANIUM BONDED® LARGE BRAID SHEAR

Features Titanium Bonded® Stainless Steel blades, cuts braid, mono and fluorocarbon line. Corrosion-resistant and stays sharper longer. Dual serrated blades grip and cut. Oversized Cuda scale pattern thumb bows for non-slip comfort and control. Lifetime warranty. (Cuda 18362)

8" TITANIUM BONDED® DETACHABLE MARINE SHEAR

Features visible full-tang Titanium Bonded® High-Carbon Stainless Steel blades that stay sharper longer. Serrated edges. One blade edge can be used as a fish scaler, the other blade has an integrated bottle opener. Features detachable handles for easy cleaning. The Cuda scale pattern handle provides a secure non-slip grip. Lifetime Warranty. (Cuda 18854)

TITANIUM BONDED® LINE CLIPPER

Features integrated line pick, jig eye opener, wire wrapper and diamond grit hook sharpener. Titanium Bonded® blades stay sharper longer. Perfect for clipping line and wire. Cuda scale pattern thumb bar for non-slip comfort. Lifetime Warranty. (Cuda 18116)

STAINLESS STEEL FORCEPS

Features visible full-tang Stainless Steel serrated jaws and integrated hook sharpener. Cuts mono and fluorocarbon line. High leverage spring-action forceps for easy hook removal and debarbing hooks. Oversized Cuda scale pattern thumb bows for non-slip comfort and control. Lanyard hole. Lifetime Warranty. (Cuda 18114)

SPREADER / GRIPPER / DEHOOKER

TITANIUM BONDED® FISH FRIENDLY JAW SPREADER

Features Titanium Bonded® Stainless Steel that is corrosion-resistant. Single-handed use. The Cuda scale pattern handle provides a secure non-slip grip. Locks closed. Lifetime Warranty. (Cuda 18117)

DUAL POSITION HANDLE

6" SKIN GRIPPER

Features visible full-tang Aluminum Alloy structure with TPR secure-grip handle. The Cuda scale pattern handle is non-slip and is designed to work in two holding positions. Lifetime Warranty. (Cuda 18852)

8.5" TITANIUM BONDED® DEHOOKER

Features Aluminum Alloy Titanium Bonded® mechanism, corrosion-resistant. Cuda dual-non-slip scale pattern grips. Lifetime Warranty. (Cuda 18835)

18" TITANIUM BONDED® LARGE DEHOOKER

Features Aluminum Alloy Titanium Bonded® mechanism, corrosion resistant. Cuda dual-non-slip scale pattern grips. Lifetime Warranty. (Cuda 18869)

SHARPENERS

CUDA MARINE KNIFE & HOOK SHARPENER - 2-SIDED, FINE/ EXTRA FINE

Features integrated hook sharpening groove. Folding handles protect diamond plated surfaces. Rust proof construction, can be used dry or with water, no messy oils required. Made in the USA. Lifetime Warranty. (Cuda 18219)

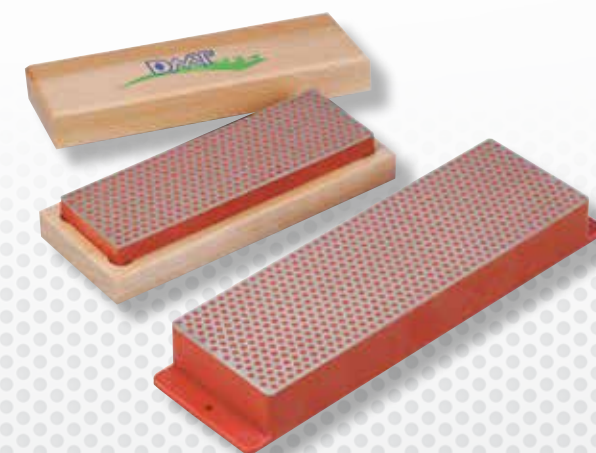

DMT DIAMOND WHETSTONE™ DOUBLE SIDED DIAFOLD SHARPENER - FINE/COARSE

Features two 4" x 1" sharpeners. Measures 9 1/2" long when open, 5" when closed. Folding plastic handles. No messy oils needed, sharpen dry or with water. (DMT DFDS41FC)

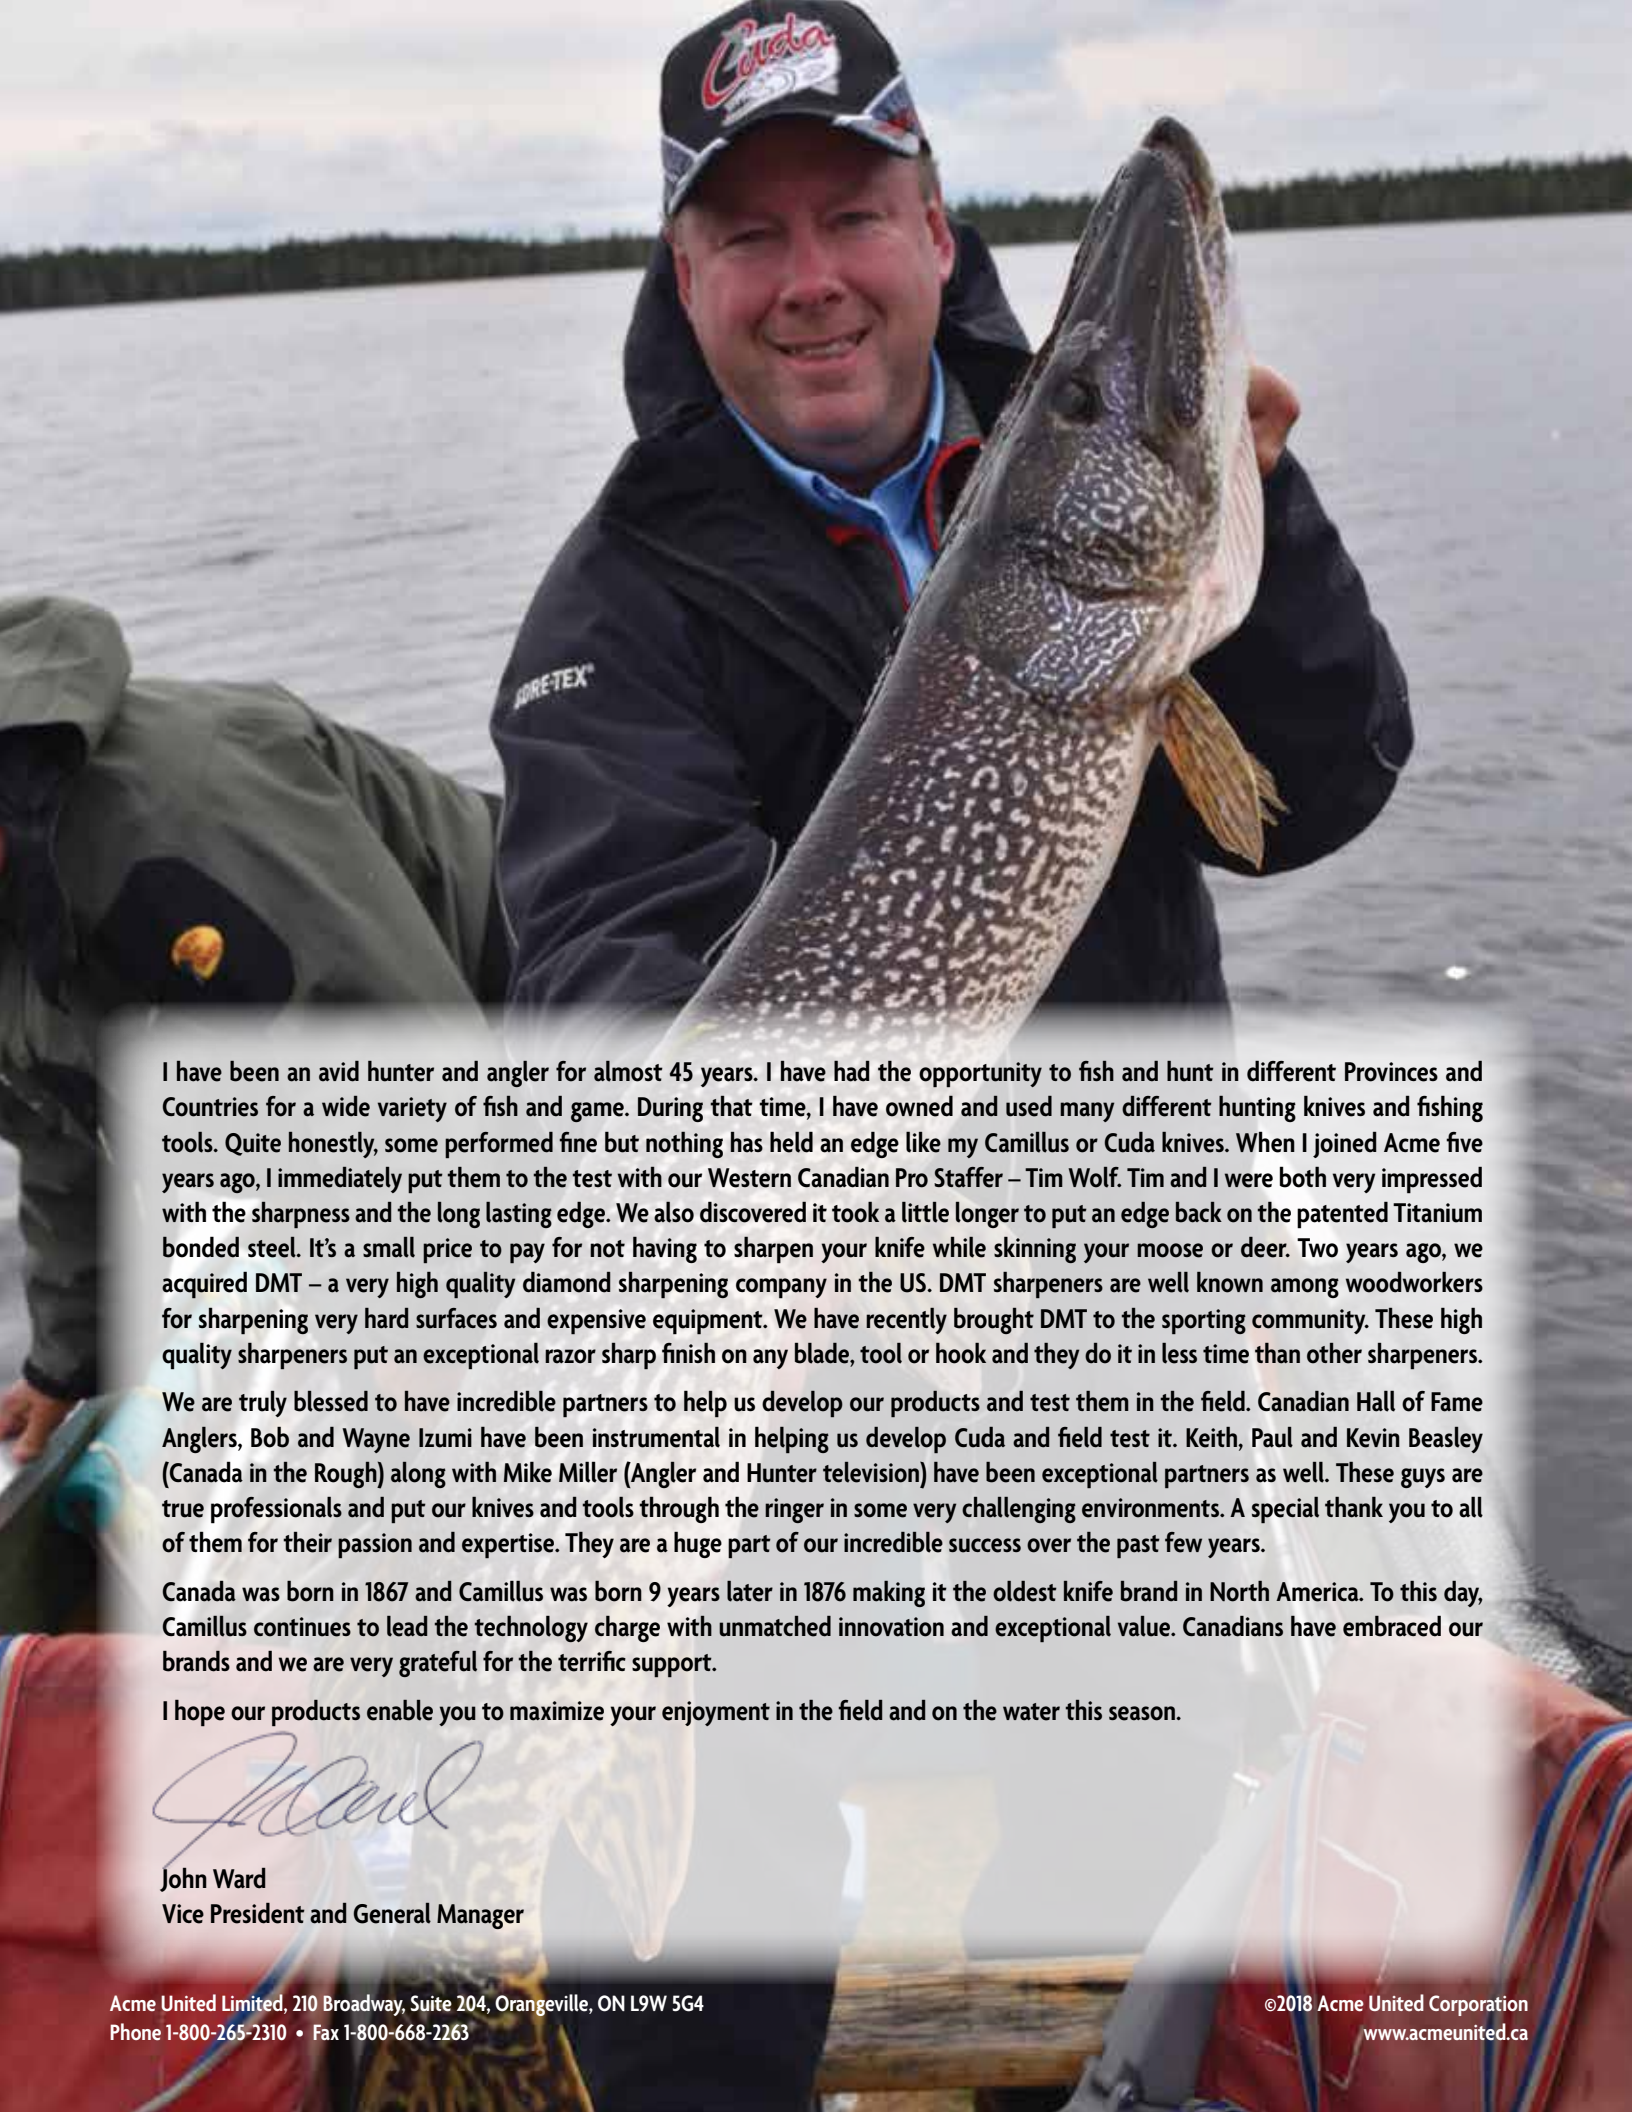

DMT DIAMOND WHETSTONE™ 6" SHARPENER – FINE GRIT

Features the signature polka-dot DMT pattern that traps metal debris to ensure clean, continuous edge contact. Measures 6" x 2" x 3/4". Includes non-skid rubber feet and comes with a plastic case. No messy oils needed, sharpen dry or with water. (DMT W6FP)

DMT ALIGNER™ EASY EDGE-GUIDED DIAMOND SHARPENING KIT

Includes three, 4" Diamond Whetstones™; a Coarse diamond (45 micron / 325 mesh) that quickly restores a neglected edge, a Fine diamond (25 micron / 600 mesh) for a razor sharp edge, and an Extra-Fine diamond (9 micron / 1200 mesh) that polishes and refines a razor edge after sharpening with a coarser diamond stone. Includes easy-to-follow instructions in a compact storage container. (DMT A-PROKIT)

I have been an avid hunter and angler for almost 45 years. I have had the opportunity to fish and hunt in different Provinces and Countries for a wide variety of fish and game. During that time, I have owned and used many different hunting knives and fishing tools. Quite honestly, some performed fine but nothing has held an edge like my Camillus or Cuda knives. When I joined Acme five years ago, I immediately put them to the test with our Western Canadian Pro Staffer – Tim Wolf. Tim and I were both very impressed with the sharpness and the long lasting edge. We also discovered it took a little longer to put an edge back on the patented Titanium bonded steel. It's a small price to pay for not having to sharpen your knife while skinning your moose or deer. Two years ago, we acquired DMT – a very high quality diamond sharpening company in the US. DMT sharpeners are well known among woodworkers for sharpening very hard surfaces and expensive equipment. We have recently brought DMT to the sporting community. These high quality sharpeners put an exceptional razor sharp finish on any blade, tool or hook and they do it in less time than other sharpeners.

We are truly blessed to have incredible partners to help us develop our products and test them in the field. Canadian Hall of Fame Anglers, Bob and Wayne Izumi have been instrumental in helping us develop Cuda and field test it. Keith, Paul and Kevin Beasley (Canada in the Rough) along with Mike Miller (Angler and Hunter television) have been exceptional partners as well. These guys are true professionals and put our knives and tools through the ringer in some very challenging environments. A special thank you to all of them for their passion and expertise. They are a huge part of our incredible success over the past few years.

Canada was born in 1867 and Camillus was born 9 years later in 1876 making it the oldest knife brand in North America. To this day, Camillus continues to lead the technology charge with unmatched innovation and exceptional value. Canadians have embraced our brands and we are very grateful for the terrific support.

I hope our products enable you to maximize your enjoyment in the field and on the water this season.

John Ward
Vice President and General Manager
